The blue gems are their Sanity And the little Shields are their health! Now you're probably wondering what the classes are about that's a secret!

Ghostgrove, Is this nice small town, Just well known for its nice and scenic tourist traps. Like the bookstore Bookworms, These small full time fair known as SparkPark {A water park with fireworks because fire makes everything cooler!} And the antique shop that our current protagonist Windy Cheso, Works with her friend Candace Acse. General Fortunes. With the exception of the walking OSHA violation that is their amusement park, The town is extremely boring people usually just hang out at the local graveyard which there are like 5 of hence why it's called Ghost Grove. But unlike most towns that have so many graves there's not even a group of situations where meddling kids can get involved in stopping a real estate scheme. So with some convincing harm Judy the three invested in buying a app for their phone. To hang out at this online mall. Which is called digital mall.

"Now this is the place." Remarked Wendy As she was going by to buy some groceries, She didn't feel like getting dressed today so she decided to use the malls version of the grocery store. Or she would put on something and gone straight down to the locals little grocery store in town. "Ooh a sell on futxcola? Buy two cases and get one free? Don't mind if I do!" Showing her bare booty as she bend over and picked up several of the cases this is input them into her cart. Jiggling her triple D's also sometimes called F's. Picking up some zucchinis some eggplants, A couple of instant burritos etc. Before she parked at the checkout counter. Actually the machine's just Xerox what she wanted and then she paid out with some cash one of the few perks of this digital mall, you don't actually have to pull out

your credit card all the time. As she walked through this door opening back into her kitchen, Where she immediately started loading up her refrigerator and notice the time. "FUCK, I'm going to be late for work!" Throwing on some clothes real quick a button Up Lad Shirt and a pair of really tight blue jeans, Barely able to keep her nice booty in they had a couple of key rips around the legs.

Grabbing a breakfast burrito and one of the cans slightly lukewarm, And jumping into a quick run. Thankfully it was only a 30 minute walk from her house to her workplace, Especially if she took the shortcut through the graveyard noted as Ash Garden Cemetery. Arriving around 8:00 o'clock, Runs inside then quickly drops the breakfast burrito inside the microwave cracks open the can and starts taking a drink.

"shish, I haven't seen you move that fast since the Mighty Grim Rangers, we're visiting? Also I didn't know you were that happy to be at work?" Candace Said noticing her colleague having a bit of a point in her tight blue jeans. "NOT --- Really!" She said looking down noticing her own and quickly unzipping her pants falling out was 6in Long Dick, And leaking out at a decent stream. "Quick hide it before.." As they hear a masculine voice coming from the background. "Now, Wendy you better be on time!" Candace Quickly dashed over and placing her mouth over cock! Mr. Basket Walks in a slightly elderly gentleman possibly around 65 maybe older with a bit of gray embraced to say. "Finish quickly and get back to work, I don't want to hear anything else. If you'll need me, I'll be downstairs in the secret lab that's behind the vendor machine that doesn't work." Quickly grabbing a beer bottle from the lounging fridge.

"Okay, IIII thIIIIink --- he's -- gone now!" Responded Windy as Cand remove her mouth. "Why did you stop" "Because we got work to do we can continue that later," She said shaking her hips. Wendy quickly opened Up the microwave just as it was about to Ping and quickly devoured her burrito and finished drinking her can. Still leaving a small trail, Before looking back and forth and readjusting herself by plugging her vaginal hole with her own still pumping Dick.

Doing some quick research on her phone over on the cans, As her stomach began to swell, Making those tight jeans even tighter as some of the buttons were getting a little stretched. Trying her longest not to go searching for PORN, While looking up about the drink 1948 Was the earliest creation of said formula, Created to help men with 'performance issues' With a variety of substances its unusual properties though did not come into effect until 1969, Then she was about to get on to attention about the Moon War. Purposely avoiding getting sucked into a conspiracy rabbit hole about fake moon landing etc. {There are a few things that I really dislike of the conspiracy theories they don't touch on when it comes to inside job that they could have touched on if they were just willing to study a little bit more in other cultures} [But I do love the joke about the fact that h0 no no no we actually did land on the moon, We filmed the set for them to specifically leave the moon. Give them a taste of freedom of away from the economic politics and they will stay there forever]

"Sho == I'm == ghoing t-ho be== ghoing f-hor == abhout threeeee, waaaaait noho maaake that twho hrs?" She said exhaling a little bit of steam, her eyes rolling a little bit back in her to her head. Fut x Colas. As it was about nine when she finished searching thankfully it was another slow day at the anti que store. Very few people were coming in to look and very few people were coming into drop off stuff and thank goodness for a good friend to take over. Around 10, she quickly locked herself into the emplo yee bathroom. Squeezing out her belly like a tube of toothpaste, While at the same time still showing of f things and bringing in the measuring tape to see how thick she was too. She had about a circumferenc e of about two to three inches. Candace Was going through several of the sales and buys.

Around 11 she came back out and get ready for them to break for lunch. "Thanks Canned, For all the takeovers and for earlier." "No problem, Wand! What are friends with benefits for?" She said sitting on her lap the cushiness of her cheeks wrapping around the exposed 'wand' "I just finished hovering the longest one, I'm not in the mood to try it out just yet again. Maybe after work though my place?" Candace, Gave a slight nod before walking off. "I'm gonna pick us up some lunch uh what would you like?" "Maybe something basic if you can swing by and see if you can find something to cover this?" Gesturing to now the flop in front of her as her jeans we're still way too tight. She even gave a slight fondling of herself around the Balls. "Sure thing i'm just going to stop by the old abandon Starpeak Hotel. As my entrance point I don't really like having an entrance point near here as usual, I'm afraid that Basket's gonna find out and he's a little crazy paranoid."

"Yeah, I think Casey is a little off his rocker." Remarked windy as she'd sat down behind the counter making sure that no one could see her. The girls each had nicknames for each other Candace Got the nickname Cand, Due to a incident involving soda cans. Wendy's nickname was wand referring to a incident back when they were kids. And Judy's nickname was often jets because she's offing jetting off to a different location every few seconds. No wonder the girl is chosen to be a delivery driver for like 5 or 6 different delivery stores.

At about 1:13 Wendy noticed That her newly developed magic wand was now shrinking along with its knockers back in to her standard vaginal crotch. Part of her was kind of sad about this other parts were kind of ecstatic. As also Candace was also A little down, But thankfully Wendy did explain she had a couple of cans at home and maybe they could knock a couple of few back. Judy walked into the antique store with a big of a sadden look on her face as she placed down her hat and leaned on to the desk.

Mr. Basket came out from his secret location. "What's the matter Judy? You look like those are darn Rangers destroying half the city he with our giant robots just smashed your car?" Wendy gave a slight sniping look at her boss. "Look the Moon Kingdom was just defending themselves, And the Grimm Rangers are still doing their thing it's been 40 years, And the program is still going on!" Before Mr Basket started on one of his confusing conspiracy theories that saying that the Rangers are still keeping up the war for military funding but in reality the war has been over for at least 30 years maybe even less.

"Right right boss and next thing you're going to tell me is that there's giant turtles in the sewers there's in New York, Or there's a giant half man half bat flying around in New Jersey?" "You two are so lucky that you know what I'm working on downstairs. Speaking in which I need to expand the lab, I need a new place to work at?" Judy realizing she can kill two birds with one stone. "How about the old hotel, you can buy it? I can work there as a bit of a cover story you can convert several of the rooms into your lab and I can Stay inside the old building?" The other two were quickly giving signs of like this could be very bad. "Maybe if you do agree two investigate? If it's structurally sound that is. Which means I'll have to work the counters sometime this week, I hate working the counter." Gesturing at his two employees.

Candace Really wanting Wendy to have and shove it in her, Tonight had a bit of a brilliant idea. "Well we could start our investigation tonight, Wendy and Me, go get some stuff from her place? Judy could tag along with us and we can just start scouting out the place maybe we should all Stay, when you turn it into part of your lab?" Mr Basket smiled. "Sounds excellent! Besides I need a better place to set up the storage for that moon rock that I'm gonna steal uh I mean study in future scenarios. Could you girls have me your phones and make sure nobody was listening in?" As the girls quickly readjusted several of their apps and handed over their phones and it's for a split second. "OK good uh because I don't know if Sims listening again?" "You know it's bad when your first names with your FBI agent." "CIA." He corrected.

After making a quick run and grabbing a Cooler to drop in 9 cans, A couple of breakfast burritos[9] Judy using the last bit of her final paycheck to pick up a couple of pizzas and giving a couple of dead eyes directly at her former employer. Before the girls arrived at the hotel. The Starpeak Hotel was 5 stories tall. Devlin Ernest, Of the Ernest family used to own the Starpeak hotels, But through some convoluted scenarios the hotels chain went out of business, Lots of mismanagement convoluted money making schemes like selling the property underneath your place to yourself and then charging rent to yourself which in reality doesn't work by having the hotel managers pay for the actual rent of the property but not for the building but they have to pay for the maintenance of the building in order to.

“shish, I can see why you use this as a secret entrance into the mall at times?” Remarked Wendy walking into the lobby. Walking past the old front desk with the series of key slots, Walking into the sections that have the gymnasium and swimming pool area. Candace Went over to the gym door and started trying to work on opening it. “Keep investigating, I'll be right with you.” She said to her friends. Pulling out a small Swiss Army knife. Using her dex=8 Easily opening up the door as she continues to investigate the area. As the two went down the hallway, Wendy kicking down one of the doors, To investigate one of the hotel rooms.

After checking out several areas the group may end Up back inside the gym area. It was about five when they finally decided to just sit down and eat near the swimming pool that was thankfully completely drained and empty. The girls dropping their pants and sitting near the steps of the pool they are bare tushies ripping against the old concrete. Placing the pizza box nearby cracking open one can for each of them. The Cocks Grew as they drank and started sprouting.

“ So far the structural integrity sounds good but we're going to have to check about the electronics later. I can't believe it's almost 7:00.” Remarked Judy looking down that her newly grown appendage and slightly thanks to some of her studies understanding it will only last Either to one or midnight. Eating some of the cheese pizza. “Speaking of what happened exactly?” ax Cadence. “Hale, In his words let me go?” Wendy looking at the pizza oh. “That's kind of awkward isn't it.” Judy replied. “Yeah.” Quickly pulling her top over her head. Wendy the unbuttoning her shirt, And Cadence taking off her top. As they finished their first can. Judy leaning over and grabbing another can, And cracked it open. “I wonder what happens if we drink more than one of these?” As the smooth liquid poured down her throat standing in front of her two friends already giving them a little bit of a squirt as they noticed it was getting bigger and thicker and thicker from the 7-3 to 20-14, With a quick tidal wave as she slashes herself down into the pool. Cum Spraying like a fire hose And also thoroughly drenching her friends.

“Now that's one big boy, And salty too.” Wendy remarked as she licked her lips, And swallowing a gulp of the Semen. Cadence turned grabbing a can climbing onto Wendy's Dick, Shoving it deep inside. “Yooooo knooow weeee're nhoott wearing protection?” “That's what morning after pills are for, I'm pretty sure the mall is okay with selling them.” She said cracking open the can and pouring it down Wendy's throat, As Cadence says belly swelled and expand As windy slowly started walking down deeper in to the 10 foot pool. 14-9 At a high pressure was pumping into her, Before she was pushed right off. Sperm Filling her body as well as slowly filling up the tub. Wendy quickly giving up, Massive erection spring everywhere, And trying to walk against her own current to grab another slice but failing miserably.

It was 8:00 o'clock when Cadence managed to climb up for her own second can, Or should be said swim up Judy was still rubbing herself as she shoved up her rear Wendy's and slowly seeing her belly expand and stretch as well muttering something about herself as Cadence took her sips. Now 20-11 Triggering the overflow of the swimming pool, Swimming over to another corner.

11:00 o'clock before everything started to slow down, Now all three girls were rubbing their swollen bellies as they climbed out of the swimming pool their massive logs laying limp and rested. "We are so sticky." Wendy, She said rubbing her belly and wondering should she even risk visiting right now. "Dang, I think we almost gained a full inch or two?" Remarked Judy rubbing her big belly and checking and see if she was gotten a little bit taller. Cadence smiled. "Maybe we should start back on our investigations. Let's see if the generator works." As the Sperm Covered and filled ladies started on their investigations.

End of day one.

Investigation part two After checking the fuse box & the water heater, So far they've noticed that power has been cut off to the rest of the building as they've been fondling in the dark using the light of their phones in order to navigate. Managing to figure out how to turn back on the power, Judy noticed and heard the rumbling of the water heater, And the slight humming of the lights revealing the area as they turn off the flashlight sitting on their phones. Spotting a couple of old vending machines, As well as a couple of old laundry machines.

"Ok, I'm not gonna bother checking and seeing if the elevator works right now, so we're just going to have to..." Wendy looking down at their heavy load. "Carry these up the stairs." Her friends gave a slight look as well. Balls We're all roughly around 8pounders. As they were walking around with the two click lacks. Heading up the first stairs the loud grunts and moans and their heavy bellies and heavy bodies. Before the girls start Checking the rooms. Still holding their phones, The girls were slightly debating. "Maybe we should get a little dressed?" Remarked Candice. "In What?!? we're kind of Big Dick & Fat Bitches." Remarked Judy. "Well, we can't just place our phones inside our asses?" As Wendy just opened up one of her many storage apps and pulled out a small purse. "What, I really like the fact that they have these nice cool apps now. It's kind of like in those uh arcade games where they had like side inventory." The other two gave a slight look at Wendy they're all the same age how is she considering them archaic heck the latest one came out last year?

As the girls placed earphones inside the bag, Wendy, she then proceeded to walk over to the first door jiggle the handle, and try to force the door open popping off the chain that was holding the door closed! "Oh my gosh is she dead?" Remarked Wendy as she stepped back when she spotted the body? Judy slowly walked in to investigate the swaying and jiggling of her body, The young lady with markings all over her body along her left and right arms including a red ribbon wrapped around her right arm and a small needle sticking out woke up, seeing Judy and punched her! After grabbing her arms, The junkie proceeded to kick her repeatedly in the duly grown junk. Judy went down as the lady ran screaming out of the room the other two, Quickly went checking on Judy she would be fine. Just with a little rest. "Well we know the room is now safe?" Remarked Wendy as the two carried her onto the now vacant bed making sure it had no more needles.

"How about we check the rest of the floors in the morning, we can all take a good rest here." Remarked Candace taking a seat onto the bed? Wendy gave a slight nod and climbed onto the bed as the girls went and took a nap together. During the night they moaned and groaned a little bit when they woke up in the morning the light piercing into their eyes. Dicks And testicles were both gone? All three girls were slightly amazed at something so massively huge was just missing.

"I nominate myself and Judy to continue the investigation Candace you tell the boss what's going on right now." Remarked Wendy now getting up to see that there were some clothes left behind

by the girl who was hiding here. The clothes were naturally a little tight as they didn't even bother putting on anything over their big huge bellies and jiggling breasts, And the girls were now putting on small miniskirts. Candace gave a slight nod an agreement while she went back downstairs? As the girls quickly grabbed some tools. As they start checking each door. Now with the power back on and the lights functioning things were getting a little bit easier.

The building wasn't as spooky as usual during the day as it was during the night, Candace eating a little bit of pizza[in cum] And grabbing one of the cans now being slightly lukewarm, As her breakfast with a slight grin as she felt her skirt raising up and leaving a bit of a trail, From the hotel towards the antique shop before plugging her finger into it for just a, While to stop her from actually leaking! Now her tight unicorn T shirt being a little bit tighter and barely covering her belly. proceed to type in the code to get into the basement area. Mr Basket or as she refers to him as his first name Casey. Was working in his lab analyzing old antique documents, books, Vases, et cetera. Next to him was a strange machine she shrugged and started to explain while sitting down in a chair as he noticed and offered her a condom? "Some of these books are old and crusty enough as it is don't need more." He said as she started slipping it on.

The two decided to split up a little bit Judy took care of the second floor while Wendy went back down to the first floor to finish checking it off. When Wendy came across room 15: As she opened the door she revealed two stinking rotting bodies, The twisted flesh wrapped around each other as they started to move her mind was racing, [-2San] She quickly closed the door As she took a deep breath and scrambled to grab one of the phones she still had all the phones, Shit! Wendy just realized she didn't leave a phone with Judy when they separated she quickly ran to go give Judy a phone real quick and also the getaway from whatever was behind that door. As the mound of flesh slammed across the door screamed in terror.

Judy came across 2-12, When she opened up the door to reveal A series of burners and chemicals,It was a drug lab thankfully nobody was there, Just as Wendy came up and ran over to hand over the phones. She noticed a couple of lighters and some stuff. As Judy gave a slight look at Wendy who is still shaking but she didn't want to bring up too much of a possibility that Wendy saw something strange and bizarre. The two gave a slight nod as they started cleaning up the room trying to get rid of all the stuff and checking and see if the room was okay to at least get ultra cleaned! The two gave a slight nod as they activated the App on Wendy's phone, And rent inside to get some actual proper supplies.

"Okay well since you're willing to take over for a while, I'll check out! The building but first off I should get ready: Placing on a powder blue track Jacket over A light blue tshirt, Before pacing on a very strange mask on top of the mask was a circular disk of pure iron, The mask had breathing apparatus attached to it.

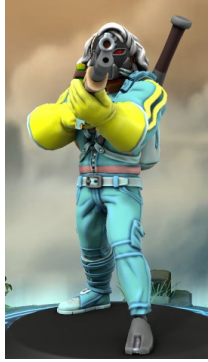

Illustration 1

Text 1: Iron ring on trigger finger, Ginstone on secondary finger , Other two rings mysterious?

Outside of the rubber gloves where a collection of rings. “I recommend you call them before they react to me.” Surprisingly his voice came very clear through the masks operating system he noticed his prosthetic foot was actually also solid iron for some odd reason at least for the part that was supposed to be made of metal. Unzipping a little bit more of the backpack that was containing his baseball bat which was also solid iron and placing in the shotgun. “Don't want to look too scary to them.” “I don't have my cell phone I left it with Wendy?” “No worries, I'll just call them what's the number? Wait a minute I have your number never mind.” Opening Up the side pocket, Near the knee where his prosthetic leg would Actually attach.

“Girls, I will be coming in my battle gear do not freak out, I am not the crazy serial killer! That I look like?” He said clearly into a pink flip phone. “Oh thank you for telling me about the monster that's in the ground floor room I will take care of that one 1st, then room 15. Breathe relax ok, Now what type of monster was it. Okay good, I can just stick with the shotgun then. I really have enough salt pellets. I think I can do that. Ok calm down Judy whatever you do don't use bleach I know it makes sense in your head but that's a meth lab probably you know after. I get done cleaning maybe, we should just call the cops on that part, I can smooth it over with the mayor. Yes, Yes I know he's handsome. Wait what do you mean he's straight? Okay, I'll grease some other palms don't worry about it. Now stay in that Mystic Mall of yours. Of course where do you think I get most of my supplies? And I'll finish cleaning Up, I'll call you back when you can come out.” Hanging up the flip phone and placing it into his pocket.

“I will be right back.” Carefully walking back to the building, Purposely taking back off the mask just so that way it looked less terrifying. With this 5:00 o'clock shadow, Facial hair his stunning teal green eyes, As he walked into the first floor there he saw the Twisted mass it already escaped the room. Grabbing the shotgun from his backpack and fired two punch shots of rock salt the ghostly creature screamed in pain in horror. “I might not be one of the mighty grim Rangers but I can still blast off some of the grimm!” Using his free hand to grab his baseball bat charge and slam it right into its body it broke apart, As its body went limp dropping the baseball bat and quickly grabbing the shotgun again taking a few more shots. As the black goo slowly disintegrated and evaporated.

He placed backpack back down And pulled out a small ball of wax with a long fuse walked over to the room place the ball of wax down pull the lighter out from his other pocket and lit the fuse it went down towards the ball of wax and started to slowly melt as the room was starting to fill up with A very light smoke. The smell of rotten eggs was filling the room. Then he pulled out three more of the orbs before walking towards the rest of the rooms, Kicking the doors open with his prosthetic leg. Next room was c

lear, So on and so forth. Walking back to the checkout counter desk, place down one of the candles? And another light again the waft of smell but this time the smell of rotting eggs was slowly dissipating turning into the sweet smell of sage.

Pulling out the phone and doing the speed dial call. “Okay the first floor is clear please come out so that way I can clean out the room that has the hazardous materials in it.” “What do you mean you guys went into the mall in the second floor?” “okay where are you guys in the mall? Okay, go to Winchester's candles and oils. Turn off private, And ask for the Jesus juice special. Then stay there, I'll pay for it and pick you two, Up later. Ohh yeah it is close to has that time frame, I guess we could spring for that meal first.” He said as he was heading down towards the basement.”

Meanwhile back with the girls in the mall: The two were reluctantly going to now have to pay for their new clothes, Paying for some jackets and that was about it to cover their chests thankfully there's always an atm inside the actual digital mall. As the girls went over to the location, Standing at the counter of the candle store, Was a girl named Mabel! she had a rainbow streak in her hair they're of dark brown a heavy metal shirt of a dead unicorn, That was looking extremely gory and very surprising for this type of store! The only reason why they knew her name was because of her name tag.

Judy walked over to the counter with her zipped up jacket and said. “Our boss sent us over here to ask for the Jesus juice special?” The girl with the name tag that says Maple. “Ah let me guess Cass, No problem i'll be right back, uh it's in the back, we have to keep the more dangerously flammable stuff away from the regular customers?” Judy turned to Wendy and looked slightly confused: “Cass? I guess that's a nickname.” “Good thing Cass always wants them in ball form, I don't really like having the open oil version hand it out.” As she placed down three red orbs of candle wax, they smelt very weird.

Casey put down all the gear inside the utility room, the shotgun, The baseball bat several of the other canisters of items, Taking out a fabric bag out of the backpack while placing the backpack back down on the ground. Along with taking off the mask, Then walking over to the ventilation system, lighting two more of the remaining orbs. Placing them after the filtration system, And making sure to turn off the fans. Before activating the app, Unzipping the jackets and taking a sigh. Opens the door and steps into the mall.

Walking into the store. “Hi Cas!” Stated Maple, As the other two's jaws immediately dropped the cloth bag picked up the order of the baseball size candles that were 3 red orbs. “Hi Maple how's your husband?” “Sam, he's doing fine, He's currently out with his brother Dean.” “And your brother?” Pulling

out a credit card from one of the many pockets? “The usual still working With the Rangers.” “Good to hear ok ladies, I know you probably have thousands of questions to ask, we'll answer them when we get to the restaurant hopefully the building will still be there.” All three of them were now slightly confused? “Ah I lit some candles in a building that might have a lab in it that's not government sanctioned I'm making a schedule is it two or one now?”

Slight cutaway: “Why does the lobby smell like sage?” Says a tall and lanky man, The big Round dish dude with a black beard and they turn around baseball cap gave a slight shrug. “Well let's go check out our little lab to see if it's got any new cracks in it?” As they slowly walk up the stairs. And then immediately turned back. “Sweet mother mercatoids why does? The second floor smell like when your mother has her burrito those BoB!” Stating the tall linky guy.

Club Fire Dudo, The floor of the place was already a little sticky. The girls quickly unzipped their tops as it was okay for them to probably walk around in this place a little bit topless. They quickly got a booth away from several of the naked Futa & Femboy? “To make a long story short, college frat Party, Multiple campus rules. And senior shipping out for the war.” “Wait wasn't the moon war still going on when you were? So this was during your training?” Wendy asked trying to figure out what was going on [-2To sanity again, Judy also took damage!] “OK, Yes, as a matter of fact, I was placed on the Artist squad. Look uh there's things we need to explain, One I'm pretty sure you two are okay with magic, considering the place for you. My condition kind of flares up when, I'm in super mystical locations or when it turns nightfall.” “So, that's why, we get off work before 5?”

“So what would you like to drink ladies?” Stated the waitress? Casey quickly raised Up three fingers and said “Futx Colas,Right?” The other two gave a slight nod as the waitress nodded and walked away placing down three menus. “Okay, since we got rid of that story? After the quick emergency clean up, we're going to need to figure out what we're going to do with the building and the suggestions?” Casey said now looking at Judy and Wendy for any ideas. “ While picking Up the menu. “ We have Cum Pool?” Stated Judy. “We also have a kitchen and a workout area?” Remarked Wendy, As the waitress returned with the drinks.

As they pick up their drinks,The waitress asked for the order. Wendy:“A chicken burrito.”As her skirt raised, Cock Slowly beginning to spray,Onto the sticky now obviously revealed why it was so sticky floor. Casey “BBQ Dragon Burger.” Once baggy cargo pants were now being very tight, The entire left leg filled with massive flesh and slowly becoming sticky and wet. Judy “Fruit Sponge Rolls”Dick Was making those baggy pants even more coated as she was spraying all over her bosses nether regions. “Any more suggestions?” As the waitress went off to go get the food. “Fixing up the city's electrical grid?” Remarked Judy. “With love for that to be an option but no.” Casey remarked feeling the tightness, Around her massive DICK! Wendy: “Wait a minute, We have grimm? You fought in the war against the Moon Kingdom? Do you have access to your Grimmoire?”

“You're suggesting a spell school or a spell gym?” She gave a slight nod. “Well we do need designated areas in order to continue practicing. Why not?” Before Judy could list all the reasons why this was a very bad idea the food arrived. As Casey slowly started to loosen up her pants,Her leg was already brushing up against the bottom of the table. “Well I, did focus on strength magic and medics? I'll see what, I can wrangle up with the mayor first?” “You know The mayor is married to a woman and while you are yeah... This is complicated.” Remarked Judy. “But before we can do anything like that we need to at least get some of the base cost any, other suggestions?” Casey said as she was slowly pulling up the Cock out of pants.

“Sex Spa?” Remarked Wendy as she jiggled her glass for a refill. As the waitress brings over three glasses. Casey gives a slight nod and says. “Can we have these glasses to go?” The waitress picks up the glasses and proceeds to walk over back towards the counter. “If we're going to do it that way, we better buy some supplies?”

As Candace heard the sirens, She quickly closed the store and walked outside to see the fire department trying to put out a massive fire in the building that was just being cleaned by her friends on the second floor! The firefighters were, Pulling out their hoses fire extinguishers getting ready their weaponry. Three of them even pulled out, Small books! The one with a red book had a little puppet sitting on his shoulder. A lady with a green book header hands upon a cross. And last but not least a dark black book was held by a woman with gleaming green eyes long flowing white hair in all three of their books opened up the puppet opened its mouth and fired water, A series of water elementals came pushing a forward from the woman with a cross these elmentals were covered in wings and looked like Angels as they came marching into the first floor and then immediately stopped.

“Something's generating an antimagic field!” The priest woman shouted and then the firefighter immediately said several curse words luckily the other caster the one that had the black book was just still doing fine and the one that was having the puppet squirt out water was also still technically doing fine. “I guess we're just going to have to send in the real people to go investigate for any people at least we know there won't be any grimm.” Said the priest woman laughing slightly as three male firefighters grabbed their axes and ran into the building wearing their uniforms.

She walked over towards the fire chief trying to beckon him to talk to her in private. “Look ma'am if your friends are in there we'll get them out, unless you have extra information about that?” “Well they're supposedly inside the mall, you know the great big one not huge.” She implied. “Ohh yeah it's one of the things that was created after the Great Moon War well actually during the Moon War. Don't worry I'm pretty sure they'll be fine. If they can't exit through their normal routes they'll pop up through one of the exits that they've made previously so it should be, OK! Matter of fact you should go meet them at one of the locations you know was when their previous, Ones why we check over the building itself.”

“Thank you and when your team investigates the swimming pool area, smell a little funky.” She responded walking away towards her friend Wendy's house.

End of investigation day two!

Candace proceeds to Crack open the can as she sits on Wendy's bed, Taking a drink as she could feel the return of her giant Dick! Her swollen correct penis was unleashing the semen onto the bed slowly coating the blanket, Yet she still couldn't see it with her giant belly rolling off the bed she proceeded to walk down the hallway leaving a trail. Continuing to walk towards the location where all the casings of the cans were placed, She didn't want to wait too long and she enjoyed the sensation when she was stuffing herself earlier and she knows Wendy enjoyed it when she was doing it to herself as well so why not? Grabbing her spraying fire hose before taking in that her can and shoving it deep inside her own vagina.

“I can't believe that there's a setting that lets us just go crazy in the mall?” Remarks Wendy, Carrying a bag full of a variety of 'accessories'. “Yeah and it doesn't even look like we need to worry about them cleaning behind us? Did you know of this boss?” Remarked Judy as they were spraying all over the place yet at the same time it was almost like it was magically being removed widget probably

was. “Kind of but, I didn't know there was some linking set up for phones? That said, We need to keep ourselves careful when we talk about things. After all I don't know where this thing is actually placed at, And for all intents and purposes this is basically us walking to a heavily monitored Big Brother scenario you're where we're being watched like a crazy hawk.”

“Right, OK, boss you know about magic we kind of know you served in the war but what type of caster are you exactly are you?” asked Wendy. “Technically, I'm a witch. The familiar is at home.” Judy's eyes wondered a little bit. “Okay could someone please remind me again what's the casting types?” Casey turned to Judy not paying attention and shoving right into the right positions as Judy's belly got even bigger and bigger. “Whoops sorry about that maybe, we should continue this conversation someplace else? we got enough supplies.” Quickly pulling out before Judy could really have a hard time moving she was already now forced to rest on to her belly crushing a little bit of her own package.

“Oh that's odd it says sorry you will have to go back to another location your previous one is suffering from Manadefficiency or Manadepression? Well I guess, I'll just have to exit wait there's two options here. Actually there's 4, My place or one of yours?” Casey responded showing off the list. Judy suggested hers for a variety of reasons one for evil payback but she didn't want to explain why on that one. The other two gave a slight shrug as they went through the extra doorway revealing a small tight apart barely big enough to fit all three of them especially with Judy's giant belly as well as Wendy's and they were getting slightly even bigger thanks to Casey just couldn't help but plunge deep into them! As Casey starts moaning the wrapping of the “fo oh yeah it's still daylight isn't it?” Now back to being a dude being covered deep in the girls Jezz!

Meanwhile, Candace was slowly using her own body to fill up the living room, Her pulsating belly moved the couch, Smashing the \$200 tv and also slamming her rear or to knock off the island into the middle of the kitchen the sink being damaged and slowly filling up the floor with water, she was feeling guilty that she was doing so much damage already to her friend's house but at the same time the pleasure of filling up was getting exhilarating! As the pressure build into both subjects getting bigger and bigger the building's struggling to handle the pressure! Wendy's wooden frame finally starting to crack and buckle of her house.

Back with Judy and Wendy, Judy's eyes were blowing into the back of her head the pressure and the small apartment may have concrete stone and wood and metal were bending and contorting cracks forming but it was a much smaller room making the pressure build faster and stronger, Small bubbling cracks of tears and rips along her body. The sounds of moaning pleasure in the sensations of ripping pain were blocking out what dialog Casey was shouting her mind was swirling and swirling With one loud voice her mind screamed!

Wendy closed her eyes as she was being slowly crushed trying to Exhale and breathe and she finally heard the loud noise and swallowed blood & CUM! Thankfully they were on the top floor of the apartment complex only the roof shattered and exploded, The pressure was like a bomb went off sending them flying, As the night sky started to loom a strange smoke swirled around Casey an arm grabbing her as well as Wendy as well? It was one of the great heroes! Captain Star!

The next day.

Wendy woke up in a strange apartment complex wait no it was a bedroom that was just shabby she could see a small collection of tombstone. "Rise and shine Judy is still at the hospital she'll be fine also the building is going to take a while to repair, I don't mean just the one that we blew up! well actually we also the one that, I was going to buy, also your house is gone." Casey said sitting next to Wendy on the bed now back is dude. "Captain's star saved us that's the little weird I mean, I know the Rangers aren't always everywhere but Captain Star!" "Yeah and the captain showed off his beautiful rings again. Normally, I would explain things to all three of you but, I don't feel like it."

"You can tell us tomorrow wait, what happened to my house?" "Well judy wasn't the only one that exploded last night apparently while waiting for us, Candace kind of went boom as well. Also the building that we were interested in exploded thanks to the meth lab finally getting ignited. also there was other things that were in there that, we don't want to talk about. Star dropped us off and then went over to the building." Casey said sitting down and hopping over to put on his mechanical leg it was just one of the standard socks iron pole and boot. "You act a little grumpy about being rescued by Captain Starr why?" "Well for one, I know it's when the fakes. Kyle Richard Karter, Is the real captain star using all those rings of his to make anyone into a random captain whichever is closest to, I think I'm not sure how the actual powerset works, still trying to figure out how the Rings work. But enough of me being very conspiratorial. I'm pretty sure you're hungry let's get some food."

End of hotel mystery

Comments and voting poll: Should Judy become a priest or shaman? Three options we continue the train of this town? Go back to Casey's days of college frat girl? Or covering the Moon War? Your comments will be the judge of that?
