

SUMMARY: Caren has always been a slim girl. Despite being terribly pretty and overall attractive, her dreams of being curvy never came true... Until she injected herself with a serum that turned her into a cumflation addict. Due to the serum changing her body, every load made her increasingly more curvy, slowly but surely fulfilling her dream...

Contains: breast expansion, ass expansion, hip expansion, hourglass expansion, cumflation, inflation, general sex

Comm by anon

"In life Caren, your body isn't the most important thing that you have." Joshua said, his hands moving around the air to emphasize his point.

"You're beautiful, you don't need a fat ass or cow tits for people to fall for you!" Joshua was very, very passionate about the topic, he seemed nearly preachy in his sentiments. His lifelong friend on the other hand was in complete disagreement.

From his perspective, the girl Joshua had been speaking to had perfectly smooth fair skin, wonderfully kept bright blond hair and the prettiest blue eyes you could ever imagine. Her face was the peak of beauty, fuckable in every way yet almost like a piece of art. But simultaneously not too perfect; Caren's face had just the right amount of imperfections to somehow make her look even more beautiful. Joshua himself had never not been attracted to the pretty girl— if anything he was the most qualified to speak on her beauty with such frequent exposure. Caren was always told she was a pretty girl, by Joshua, her family and damn near everyone she had ever met to be perfectly honest.

But as Caren shook her head at her ranting friend, she couldn't help but feel

completely unattractive. Despite being the prettiest girl around, Caren could never forget what just one person had said to her, just one time in her life. Caren thought about it quite often actually, it was her one insecurity. Her life was otherwise completely perfect but just **one** instagram comment from a complete stranger was enough to shatter her self view for years to come.

"her face is nice and all but her body could use some work. how could one girl be so damn flat? XD"

The comment flashed in Carens head like it had just been posted yesterday. Once upon a time Caren had decided to post a bikini picture, though Caren had always had a massive following just for her face alone. The picture showed *everything* anyone would want to see but somehow received much less attention than her face always had, her likes were far lower than on average. The reality sank in quickly for Caren, her body was the most unattractive part about her. But it could definitely be worse, she could be fat, ugly, or even weirdly proportioned, but no... she was just flat. It was absolutely crazy to her what one comment could do to someone's self esteem, perhaps she just wasn't ready for negativity after receiving so much praise all her life.

So she went to work. Caren researched for months trying her very hardest to find a way to get curvy easily; her desire for a fat ass and big tits clouded her mind with envy for the curvier models she always saw online. Due to her obsession, rather than just resorting to normal methods like exercising or even surgery Caren somehow found herself researching chemical experiments...

After a long while of research Caren eventually managed to strike gold; a secret, scrapped compound that had never made it past the testing phases of development. **Chemical C**. There was only one known place she could find the miracle chemical, a dirty old abandoned lab that probably should have

been cleaned much more thoroughly than it was. Instead of thinking further on her decisions or on her strange obsession with getting thick Caren managed to drag her best friend Joshua into a late night, breaking and entering lab heist. After a long while of searching the dimly lit laboratory corridors, Joshua managed to get his hands on the payload carrying syringe. Oddly, its color was misty white, a connection Joshua refused to vocalize despite having thought about it immediately. Instead, Joshua opted to try his best to convince Caren to not follow her curvy desires...

"But if you **really** want to do this, Caren..." Joshua paused, his hands lowering with his gaze as his opinion was made obvious.

"Don't let me stop you. I just want the best for my friend and this could be the opposite of that..." Joshua stood for a second and watched as Caren rolled her baby blue eyes, blowing her hair away at the same time.

"Actually, please do let me stop you. Injecting foreign, **random ass chemicals** you found in **random ass laboratories** absolutely **CANNOT** be good for you!" Joshua once again tried to plead his case but to no avail, Caren didn't even react but Joshua stepped back as he saw her getting ready to speak.

"I don't give a **fuck** Josh! This is all I have ever wanted and I **promise** when I get boobs I'll let **you** have first dibs!" Caren said with a hand resting on her flat hip. Joshua sighed and finally gave in, tossing the syringe over to Caren's open hand, watching as it landed perfectly in her waiting palm. Josh gestured with a shrug, hoping Caren would get on with it already so he could hurry up and see if he needed to call an ambulance or not.

Caren smiled towards her friend with clear appreciation, it took a true friend to

break into an abandoned lab just for the possibility of his friend getting boobs with a probably illegal concoction. With little further hesitation Caren moved the syringe to the appropriate place on her arm and swiftly jabbed it into her, quickly injecting the creamy payload deep into her body. Joshua looked away to begin rummaging through the desk laying papers, both in an attempt to shield his eyes and an attempt to find a note or two on the lab and hopefully the syringe.

Caren didn't take long at all to begin feeling the effects of the injection, a tingle spread through her body from her head to her toes, from the surface of her skin to the very deepest point of her body she could feel. Caren couldn't lay her fingers on it at all, it was as if her very body was being changed down to her DNA itself. She definitely wasn't the sciencey type and simply stood stupefied by the tingly feelings she felt, even her head felt like it was being altered by the formula...

While Caren basked in the foreign feelings Joshua discovered a cluster of notes in the pile of tattered papers. Josh scanned through them, throwing away page by page until his eyes discovered exactly what Caren believed the formula was for; **Chemical C.** Josh raised an eyebrow, apparently the paper had more to read than was originally believed.

"Caren?" Josh said, turning to receive his confused friend's attention. *"Why the fuck are we injecting something called **Chemical Cum** into your body?"*

Caren continued standing still with a nearly completely blank stare. Josh waited a second for a response, staring at his unresponsive friend while he waited for something to happen.

"Caren?" Josh's concern grew further, his eyes darted back to the papers only to find an extensive list of side effects along with various reasons the development of Chemical C was discontinued. Joshua's heart dropped in pure fear that Caren wasn't okay. The page seemed like it went on forever, Josh continued to read until he found a possible reason for Caren's unresponsiveness.

"Chemical C, short for Chemical Cum, is a passion project funded by SBAIC. In our research, we have strived to create a compound that could convert male sexual fluids into female sex appeal. It may sound very... crass, but it is a price that must be paid for fat assed, big titted women. To whom ever finds this note, I thank you for releasing Chemical Cum into the world. I look forward to hearing about you on the news, I'm sure your home town will find no shortage of entertainment for your new, curvy cumslut. Our project was unfortunately scrapped due to the discovery of far more interesting, sex related things, though the formula is kept by SBAIC for later research, we kinda just decided to leave this syringe here just to mess with people. If you could leave a little syringe on a desk somewhere and create cum addicted curvy whores, you would do the same thing. Anwho, following this explanation will be the various side effects discovered during our research here."

"SIDE EFFECTS:

Upon first injection users may become unresponsive as their body is altered by the serum. This may take seconds or up to an hour as the larger the person is, the more of their cells must be altered. This is a harmless process, you have no need to worry. "

Joshua breathed a sigh of complete and utter relief, swiftly wiping the sweat from his brow as he continued reading the page as his heart slowed back down. Josh looked up at the unresponsive Caren, still a bit worried, but looked back down to continue reading.

"PROS:

The formula was designed to have only pros but as it was abandoned, cons and further side effects may be found. Aside from that disclaimer, you may expect the following;

Growth of Breast Tissue

Growth of lower body, specifically targeted at hips, thighs and posteriors.

Increased lubrication and a tenfold multiplier of sex drive.

Immense pleasure received upon being ejaculated into, regardless of entry point.

Lack of gag reflex, unlimited capacity of anal and vaginal holes along with increased amount of overall elasticity. Patients tend to become 'Cumflated.' due to these factors.

CONS:

Intense addiction to male ejaculate that only increases upon every dosage received. Increased attraction to most men.

Increased cum output, increased penis and testicle size of men engaged in sexual contact. No doubt these factors will result in increased libido as well. This could be viewed as a pro, but it is a con if you'd rather not raise your cum output. We have no idea how this effect works, our working theory was some type of hormone that encourages nearby males to feed the growing cumslut.

Injected subjects may come to completely rely on cum, some test subjects became so hopelessly addicted they continued to get thicker and bustier until cured of their addictions, though the curves remained. These patients had to have some form of sex at least once a day or they'd go into feral heat, which

says a lot considering they were essentially always in heat around most men. If you find yourself in a similar situation, feel free to contact SBAIC. Happy cumming! Godspeed to whoever loved curvy cumsluts enough to discover this note!"

Josh raised a hand to his chest and sighed yet again, happy to read nothing was fatal to his friend. Truth be told, Josh could barely believe what he was reading. Why was this lab even here? What scientist was so irresponsible they left the documentation and the serum itself just laying in some laboratory? Had Caren been baited into coming here by some invisible force at the SBAIC? Why the hell was the note addressed to a male party as if he even wanted this? Joshua's mind raced, his eyes finally raising from the paper and moving upwards to look at Caren, standing right in front of him, her pretty blue eyes standing out against the surrounding darkness.

"What the hell Caren?" Josh stepped back in surprise, Caren had somehow managed to be standing directly in front of him without him noticing. With two locked eyes, Caren stood completely motionless once again, her mouth agape as she visibly drooled in Joshua's direction. Caren stepped forward, completely wordless, Josh continued stepping back until he found his back pressed against the wall. Were the side effects activating? Josh was worried, and yet somehow still turned on. Josh felt a little guilty knowing Caren was craving his cum and yet he still wanted to do nothing but cum down her throat on the spot. He had always had the hots for her, her promise of *"first dibs"* was more than enough for him to go off of. But still, he did nothing. Luckily, Caren spotted a bulge forming in the man's pants, further encouragement for her already lust filled brain.

Caren stepped until she met up with Joshua, planting a hand on his chest for a brief second until she moved her hand and herself, downwards. Joshua had no clue how to react, Caren moved her body downwards until her hand met

his belt. Caren made quick work of the belt and the pants fell soon after, revealing Joshua's growing hardon to the empty laboratory. Caren grinned, her open mouth clearly salivating at the sight of the cock before her. Josh was overall quite average at best and decent at absolute max but as Caren moved her head around his cock he noticed it was growing much, much larger than usual. Even his balls were beginning to feel heavier, he could almost feel them churning between his legs as their mass grew to touch his thighs. Had these been the side effects already in action? How powerful was the serum to influence him so quickly?

Before Josh could think further Caren's hand started moving up and down his larger length, the eight inches perfectly fitting in the palm of her feminine hand. Caren continued pumping with reckless abandon, her lust so intense and obvious she lacked technique entirely. Still, it was more than enough for Josh to begin groaning in response... until Caren stopped. Joshua looked down at his larger dick resting just above Caren's nose, questioning what exactly she was doing. Caren dropped from her crouched stance to her knees in an instant and ripped her pants away with strength Joshua had never expected her to have.

Or they were just cheap leggings. Either way, they laid in pieces next to the now bottomless Caren, who was now pushing her fingers into her panties, the masturbating motion picking up speed as the girl thrusting in and out of her sopping wet opening. Caren moaned eagerly, the wet sounds of her pussy and her lewd moans filled the dark room entirely. She looked up at Joshua, her face flushed red and her tongue hanging from her open mouth with obvious need. Caren continued to touch herself, once again lacking technique as her fingers pumped in and out of her opening with quick aggressive movements, every pump shooting out just a bit more of her juices onto her thighs. Caren's blue eyes begged to be fucked, Joshua knew she needed it after reading the notes and the view he had from above was far too good to ignore. He knew he'd have to take things into his own hands, Caren was

clearly far too horny to have any type of technique or method...

Josh grabbed Caren's head, pulling her blond hair in between his fingers as his cock throbbed forward with one last growth spurt, the tip landing directly in front of Caren's open, wet mouth. Joshua smiled down at the still moaning girl, he had always wanted to see the pretty woman on her knees for him, it was a dream come true. Josh reaffirmed his grip once more before pulling Caren fiercely onto the base of his dick, all eight inches entering her mouth instantly with absolutely zero gag reflex or complaints in sight. Joshua's head flew directly to the ceiling, the massive amount of pleasure from simply entering the girl's needy mouth was far too much for him to handle in his enlarged state. Every inch of his dick was filling Caren's new fuckhole and every inch of her tongue rubbed against him eagerly, stimulating the entire length of the throbbing member. Josh only grew more turned on when Caren began moaning, her moans somehow escaping her mouth through the obstruction inside it. Her masturbation continued unabated and with even further aggression, getting face fucked was clearly a turn on for the girl now if it wasn't before. Caren's throat visibly filled, her mouth stretched wide around Joshua's dick and despite being so desperately, animalistically horny, not a single tooth ever touched Josh once.

But if Josh thought that was the end he was sorely mistaken. Joshua reveled in his oral entrance for a bit longer than expected before he finally began thrusting. Rather, moving his hips slightly as he repeatedly dragged Caren's head back and forth, making sure to have her kiss every inch of his cock along the way. Josh continued the process, his speed picking up until he was truly giving the girl a proper face fuck, his cum filled, baseball sized balls delivering a hefty slap to the girls chin with every movement. Caren was now the perfect image of a cock obsessed whore, her eyes teary and her thighs completely coated in her own pussy juice, she had managed to orgasm multiple times from just fingering herself and sucking his dick. Josh neared orgasm, precum spilled from his throbbing balls like a river, Caren drank up

every drop like it was the greatest drink in the world. To Caren, it really was. The taste of even pre-cum was divine and the feeling of sucking cock was just as good for her.

As the precum entered Caren her eyes visibly rolled into the back of her head, if her mouth wasn't filled with dick she'd have moaned so loud anyone outside would have heard it. Caren was hit with a body rocking orgasm just by drinking precum, her fingers stopped moving and her body shook in response. But Joshua didn't stop, not at all. Joshua continued to face fuck the moaning girl until she couldn't even moan anymore, not like he cared, his dick was so sensitive and the feeling was far too great to even be concerned with Caren's state. He knew she'd be fine, the serum had altered her to serve this exact purpose after all. Joshua continued to thrust and continued to pull Caren's head back and forth, slamming her lips onto the base of his dick with every movement. Down below, Caren's stomach was visibly inflating with just precum, Josh was filling her so quickly she began to look pregnant.

But her slight belly didn't last long at all, in no time it was back to flat despite Josh still injecting the girl with a steady stream of pre. The serum definitely couldn't have worked this fast normally, perhaps it was just a result of it being Carens first encounter? No matter, Joshua was far too horny to be thinking analytically. Josh looked down at the girl and saw his cum being clearly turned into tit flesh, Caren's hard nipples pushing further into view as her flat chest grew from bee stings to slight mounds. The surprise in his eyes was completely unmatched by the beauty of seeing Caren was actually growing tits. Caren was finally getting her wish, even if she wasn't really there to realize it. In seconds she went from completely flat to a solid A cup and then to a solid B. It wasn't much but both parties were sure to be happy with the results. Caren's slick thighs plumped up a bit as well, though not as obviously as her boobs did. Her ass was no stranger either, the flatness it previously had turned into a bit of roundness. Noticeable, but not the massive curves Caren had always wanted.

At that moment though, neither of them cared. Joshua was about to cum and that meant absolute nirvana was incoming for them both. Josh pulled back one last time, taking every inch out of Caren's mouth until only the tip remained. Caren desperately tried to get Josh back into her mouth but before she could, Joshua thrust forward and truly impaled Caren on his dick one last time. Joshua nearly yelled out in orgasm, only holding himself back for fear someone could find them trespassing. It became harder to hold back his own moans as he heard Caren groaning below, the girl rubbed her inflating belly and Josh cummed even more as her soft lips hit the base of his insanely hard dick.

The orgasm wasn't quick at all, Caren stayed in place for every second as Joshua's large balls visibly deflated while his cum was being pumped into the girl's needy belly. Caren shook with another orgasm, her stomach pumped up by the second until she looked even more pregnant than before, Caren appeared to be full term with a single child and still continued to grow. Josh couldn't stop cumming, the pleasure was the best he had ever received and it was very safe to assume Caren was in much the same boat. Caren's belly continued to grow until Josh went completely limp, his dick wetly sliding out of Caren's mouth and plopping against his thighs just before the two fell to the floor in complete exhaustion. Before Caren fell asleep, the last thing she could see was her massively grown stomach sitting on top of her, a full belly that looked full to the brim with nearly twins. Caren let out one last moan, happy to have so much cum inside her body...

—

Caren laid on the lab floor, her previously swollen belly deflated and the light gently creeping up onto her eyes. Josh had woken up long ago but his focus was on other things, primarily scouring the lab for any more information he could come across. It wasn't every day your close friend of multiple years

decides to inject unknown chemicals into her body. Sure, he had just lived out one of his darkest, most twisted fantasies by fucking the living hell out of her throat and filling her stomach with a very, very large amount of cum.

...A fact he was just now starting to question, even while rummaging through the papers. Joshua pulled his pants down with a quick yank, eager to see if his dick was the same as yesterday... To his surprise, and his happiness, it was. His cock remained just as large as Caren's... 'pheromones', had grown it to. Joshua smiled to himself, his mind filling with glee as everything really sank in. He had just given the face fucking of a life time to his childhood crush and his cock was equal to that of the most powerful porn star or the worlds greatest sperm donor.

Life was good.

...A little too good. Joshua continued to search through the scattered papers, expecting to find some hidden side effect or evil microbot menace but found not a single thing. It seemed everything they needed to know really was in the note. Caren was now afflicted by a cum addiction that would gradually make her curvier as time passed and increase her lust by a hundred fold. Joshua sighed, it was too late to do anything now anyway, what's the worst that could happen?

Joshua looked over at the floor laying Caren, wrapped underneath a spare blanket he found. He could never leave his best friend uncovered and after last night's escapades he really wasn't feeling the energy to carry them both all the way home. Joshua further opened the blinds, allowing the sunlight to spill over the pretty woman's sleeping face even further. Caren reacted in her sleep, her eyes twitching a bit as her brow furrowed to process the sudden light coming from outside her closed eyelids. Josh moved to shake the girl

awake, patting her on the shoulder and brushing a hair out of her eyes.

Caren woke quietly and slowly, her face utterly tranquil as if she had just had the best beauty sleep of her life. Caren smiled up at her friend, he had done the honor of cleaning up his cum off her while she was asleep but she licked her lips anyway, silently savoring the taste of whatever residue was left.

"Are you okay Caren?" Josh said, still a bit concerned for his friend despite her glowing appearance. It was a bit odd, she looked even prettier than usual, perhaps her cum addiction managed to clear her skin? It was the only explanation for her newfound prettiness, she looked even better than before even if her face was entirely the same. Joshua couldn't explain the feeling at all, brushing aside the thought for later.

"Never better!" Caren perked up, "Thanks for helping me out, Josh. And thank you for last night." Caren finished, winking while delivering her last words. It was obvious to Josh she was in a much happier state, her smile much larger than even when she was at her happiest. Perhaps a cum addiction wasn't so bad?

"Your cum tastes amazing Joshua, we've gotta do that again sometime!" Caren said cheerfully, absentmindedly licking her lips again, cradling her empty belly a bit at the same time. Josh was at a loss for words, he'd investigate later. Joshua pulled away the blanket and helped Caren to her feet, both of their eyes drifting down to her newly thickened form. Caren admired her new curves, not much bigger but still a noticeable amount, just what she wanted. She was very, very happy with her current decision making. Josh didn't want to question things, he could really use a nice breakfast.

"Let's get us out of here. I'm done with dusty old labs for at least the next month..." Joshua said, pulling Caren towards the laboratory exit.

Caren and Joshua lived very regularly for the next few days. Caren occasionally ended up on her knees, begging Joshua once again just to cum in her mouth, an act Joshua was extremely happy to commit. It wasn't every day pretty women begged to suck you off and he was more than happy to be her choice. But, as time continued, Caren grew more and more horny, Josh and Caren both recognized it as a clear symptom of her growing addiction. Every time she swallowed Joshs' cum she was exceedingly happy for the rest of the day, giggly, smiley, bubbly and generally sweet. But now, after just a day, Caren had become more horny than ever. Her begging had become desperate pleading, almost dropping to her hands and knees just to beg Joshua to fuck and cum inside her, something she had never asked for until now.

"Please, please, please Joshua!" Caren begged, "I need you inside me right now!"

Caren was growing even more desperate, she hopped in placed, pouting and trying her very best to coerce Joshua. She hugged him, stroked his arms, kissed him at least a hundred times. All Joshua could do was stand confused. Just a few days ago this same girl was his regular old friend and now she was kissing him and begging for him to fuck her.

In public.

The pair were standing in the middle of the closest park, just recovering from taking a short jog, followed by going out to eat together— just the usual best friend activities. Caren wore a short skirt with a cleavage showing bra, which showed off her newly grown C cups extraordinarily well despite them not being too big. Joshua was beginning to think this was her plan all along, had the serum made her into a public whore? Was she getting off on the idea of fucking in the middle of a park? It sure seemed like she did. Joshua raised an eyebrow at the horny woman though Caren just continued to beg, grabbing at his belt before raising her skirt into the air.

Caren held her skirt into the air for what felt like hours, revealing her entirely naked, soaking wet pussy to the entire park. Her thighs glistened as much as her nethers did inbetween her thicker thighs, the air passing through her legs forcing a visible shudder down her spine. By now it was obvious she had planned this all along, her cum addiction only forced her to execute her plan earlier than expected. Logically, Josh assumed the thigh rubbing woman would have done this at some point anyway, her lack of panties a clear sign she was intending to have some exhibitionist fun sooner or later. Joshua looked around frantically, throwing his arms up in an attempt to get the cum focused girl to stop.

"Caren! What the hell are you doing!?" Josh quietly screeched, "We're in a fucking PUBLIC park!" Josh grabbed Caren's hands in an attempt to pull her skirt back down but she didn't budge in the slightest, her hands firmly held her skirt upwards and every passerby, albeit just one or two people, saw everything she had revealed underneath.

The air passing between her softer thighs blew directly in Joshua's direction, the pheromones quickly entering his nose and his dick hardening in response. Joshua wasn't at all horny but the combination of the public display and the

irresistible, natural aphrodisiac Caren now emitted got to him far more easily than he expected. The notes he had read were completely correct, anyone near a formula injected cumslut would be very, very inclined to give her what she wanted.

"Fuck me or we're both getting arrested for public indecency!" Caren said, giggling a bit along with her toothy, lustful grin. Obviously that wasn't how anything worked, Caren would certainly be the only one at fault here but Joshua didn't want his friend to get in trouble at least... Caren looked down at the sitting down Josh, her eyes and her open mouthed smile told everything he needed to know.

"Fine." Joshua sighed with a shrug, "Come sit in my lap."

Caren cheered happily, finally letting her skirt drop back down and lowering herself to her knees. Josh found himself growing harder, his pants tightening as Caren convinced his mind to crave her pussy. It was an odd feeling, he wasn't horny at all seconds ago and his dick was now as hard as a rock. Those scientists were quite the team.

Joshua's thought process was interrupted, before he could think any further on the implications of Caren's horny-ifying pheromones Caren yanked the button out of his jeans and zipped his fly down in an instant. Josh nearly jumped in surprise but found she had already begun working his dick out of his boxers, only seconds later did his entire large cock spring forth and into the park's afternoon air. Caren gazed at his length with her usual cum lust, her eyes nearly glazed over entirely as her mouth hung open.

Caren began kissing and licking Joshua's length in an effort to get him ready

for what she really wanted to do. She continued to kiss and tease him until he reached a full hard on, her other hand working at his balls to coax forth the thick fluid she had grown to love so much. Josh himself was too nervous to focus on the pleasure he was feeling down below, he didn't even look, rather his gaze shifted from the various inhabitants of the park, glad none of them had caught on just yet. Or at least he hoped they hadn't.

Caren brought herself to her feet, rising out of her crouching position until she stood directly over Joshua, taking his gaze from the surroundings and to her flushed face. Joshua wasn't at all surprised, it was clear from her lack of panties she intended to have him inside her though he didn't expect their first time to be on a public park bench. Caren turned around and lifted her short skirt once again, giving Joshua a full view of her clean, smooth lower half in all its softness. Her ass had been plumped up perfectly by the serum, not too big and not too small but entirely round. Her thighs matched, their thickness was enough to make Josh grow just a bit harder. Caren moved on hand to spread her ass cheeks apart, Joshua's eyes widened as he saw just how wet her lower half was.

Caren was quite literally dripping, in every sense of the phrase. The Chemical Cum had super charged her libido to the point she could have enough lube for ten different men. Caren stepped backwards until her pussy was directly above Joshua's cock, the warmth spreading across him as her wetness dropped down onto his tip. Joshua had grown much more turned on than he had been originally, all he could think about was cumming inside the slim girl standing above him, his eyes greedily looking over her lower half and imagining how great her pussy would feel wrapped around his dick.

Rather than wait, Joshua grabbed Caren's hips, eliciting a playful giggle from the lustful girl. He held her hips for a brief second until he pulled on her lower half, forcing her body downwards until she found herself impaled onto the

entire length of his dick, every bigger inch pushing inside her until he was balls deep. Caren would have moaned if she could but Joshua had already covered her mouth, forcing her to bite down on her very own shirt.

"We're in public, whore. If you want me to cum inside you, don't make a scene..." Josh scolded, his tone far more dominant than previous. Caren responded extremely well to this treatment, she eagerly nodded, biting down harder on her shirt while she tightened around Joshua's girth. Caren placed both her hands on the park bench's handles, giving herself more leeway to lift herself up and down. Josh grabbed underneath her thighs as he spread his legs, slowly beginning to move as he savored the feeling of Caren's wet hole.

The pair moved in complete sync, Joshua lifted Caren from below while Caren raised herself with her arms. The pair were eager to fuck, Caren's lust influencing Joshua in the best way until he found himself lifting her up and down on the park bench, rapidly spearing her on the full length of his cock. If any passerby came the sight would be obvious, the pair fucked like animals in heat and Caren's moans could be heard even through her shirt. Both of their heads were completely empty, Caren was in what felt like heaven, she enjoyed every wet slap her pussy gave to Joshua's dick and she loved every clap her ass gave every time she bottomed out. Joshua was in the same boat, fucking Caren was always a fantasy but he never thought it would be like this.

Caren continued to ride Joshua, her bubbly butt landing heavily on his thighs and audibly slapping her ass against his lower half. With every landing Caren could nearly feel Joshua's balls churning, the newly born cumslut picking up her pace at the mere thought of cum. The friction combined with the exceeding wetness covering his cock was heavenly, Joshua would have no problem with cumming inside her right now but his serum supplied, newly found sexual endurance forced him to keep going. Joshua felt like he could fuck Caren for hours, he was ready to go at any time Caren even came near

him and now was no different. The two fucked in public for nearly an hour, briefly stopping whenever the rare passerby came near. It was obvious what they were really doing but no one questioned the panting, sweating girl sitting on the pleasure faced man's lap.

Eventually Joshua finally neared his orgasm, Caren had at least three by this point, her sexual sensitivity combined with her cum hungry lust had pushed her past climax numerous times but she never ran out of energy, her body refused to stop until she was filled. Joshua finally stopped moving, seizing up as he neared his long sought orgasm. Caren had already been filled with a copious amount of precum, which only encouraged her to receive the real payload. Josh's thrusts came to a complete stop and his dick throbbed, his ejaculate rising from his cock in one big eruption that visibly shot into Caren's lower half.

Caren's stomach grew from small to big in what seemed like no time at all, her belly pushed her shirt away and forced her skirt downwards as Joshua's big balls throbbed underneath her. Every pulse forced another massive amount of cum directly into her pussy, filling her belly with more cum than Joshua had ever imagined. The two moaned in tandem as Josh drained himself into her, her stomach rising continuously until it finally stopped at what appeared to be a full term pregnancy with twins. The pair sat on the bench for at least twenty minutes afterwards, still entwined as they tried to get their bearings. Caren rubbed her swollen stomach and felt the massive amount of liquid slosh around inside her, a happy smile sitting on her face all the while.

—

Rather than go straight home Caren opted to take Joshua to a nearby club. Caren refused to travel home to clean up, her thighs still glistened and an

occasional bead of cum ran down to the floor. She mentally noted that she should invest in a plug, she hated the feeling of wasting good cum, especially when Joshua had worked so hard making it for her...

The two stood in the middle of the club's dance floor, the still cum heavy girl dancing with reckless abandon. Joshua, his brain snapped back to normal, was struggling to comprehend exactly what was going on. Caren had wanted to go to a club after fucking in the park? Why hadn't he reacted more to having his fantasy fulfilled? It felt empty but purposeful, knowing she was just desperately horny for cum took away the emotional value but a nearly feral feeling deep down made him feel a similar desire to constantly fill her with his cum. It was an odd feeling to be sure.

Once again, the feeling was short lived. Caren got on her knees in the middle of the dance floor and pulled Joshua's pants open. Her gravid stomach moved along with her own movements and her mouth moved directly to Joshua's dick, his body hardening instantly as if Caren commanded it. Shortly afterwards, Joshua came directly down her throat, adding further to the size of her heavy belly. His refractory period was virtually nonexistent, Caren often sucked him off just to get a quick fix and came out from between his legs happier every time.

Joshua left to clean himself up and Caren moved, scouring the club for a lucky guy or two to fuck her before she left for the night. Joshua cumming inside Caren filled her with an even larger desire, she craved cum and craved seeing her stomach even bigger than it already was. Caren approached the smallest group of guys and flirted her heart out, none of them questioning why a pregnant looking woman was in the club. Of course, every time Caren spread her legs their hesitance disappeared further, her aphrodisiac pheromones leaked into their bodies and gradually goaded them into lusting after her. Caren giggled, pretending like the group's jokes were at all funny. In reality,

she was focused on the growing tightness in every man's pants, an effect Joshua had made her very familiar with.

Caren moved, pushing herself into the first stranger's lap. In no time at all he ripped her clothes off, the lust finally grew too much for him or any of his friends could handle. The club booth quickly devolved into an orgy, Caren successfully seduced a random group of men she would never see again. Each one fucked her in every single one of her holes, cumming inside her with their grown cocks and their newly virile balls. Caren didn't leave that booth until the morning, Joshua even joined in at one point. In the morning, Caren found herself asleep underneath a mountainous stomach, a full beachball of cum sloshing above her while her small hands desperately attempted to cradle it. She'd wake up later without the big belly and with newly expanded curves, Joshua did the honor of carrying her home and the large group of orgy going men saw themselves out, they'd probably never see the cum slut again.

THE END
