

A poolside pool toy

My first ever water inflation commission done for Log_v2, featuring his character Karma and Lou with a dash of puff kiss inflation, lewd water inflation, and safe popping. However, since this is my first water inflation commission, I might not nail down the feel of heavy water-based inflation perfectly, so any feedback is appreciated.

The afternoon sun lazily glowed as you lounged on the deck chair. Sunbathing in front of the pool as you relaxed after a hard day's work. You gaze out towards your backyard, admiring the lush green meadow and the few trees as you lounge lazily next to the calm figure 8 pool. The warm afternoon sun warming your black back and your white chest and belly as you sighed contently, lapping up the warm sun with your naked body.

"Having fun relaxing babe?"

Lou, your lovely girlfriend, emerged from the backdoor of your two-story house, joining besides you on another lounge deck chair next to the pool, her slender rubber dragon curves catching your gaze like an irresistible rose. Her painted scales shimmering under the sun, glinting as if she was wearing a coat of diamond as she noticed you staring.

"Helllooo... Lou to Karma... anyone upstairs in that sweet skull of yours?"

Her voice finally broke through your daze as your mind realizes that you have been staring agape at her new body. you blush, trying your best to hide your flushed face with your hands as she scooches over, squeezing you in a tight rubbery hug as her voice teased you in your ears.

"You really love how soft and rubbery this body is huh, guess it's a good thing I brought it out to tease you just on your day off..."

She gently peels your hands away from your heated face and wraps them onto her luscious smooth thighs. Her face leaning in to nibble on your neck as you whimper, feeling her hands guide yours as your fingers massage and grasp at her soft, smooth skin, feeling it yield and jiggle as she giggled.

"Hehe, that tickles... hmffffff-" her words cut off as your gathered up your courage to lean in for a kiss. Time slowed down as your lips touched, your mind in momentary bliss as you shared that intimate moment. Your tongues playing with each other as she rewarded your moment with a muffled grunt of pleasure. A thought occurred to you as you inhaled a big breath of air. Letting the pressure build in your lungs as Lou opened looked at you in wonder. Her eyes widened in realization as you puffed with all your might into her open mouth, feeling her thighs widen and swell as you puff kissed her. her petite tits ballooning as they rubbed up against your own chest.

“mmmmgh”

She purred in pleasure as she leaned in close, letting her swelling bosom and body squish and spread across you. You struggled to huff out every ounce of air out of your lungs as the breath turned into a pathetic wheeze. With a desperate gasp, you finally broke off the puff kiss and pant to catch your breath, with Lou nuzzling into your tender neck as she whispered in your ear.

“You puffed me up quite a bit, impressive....”

Her hands grasp yours as you explored her now double G cups, your fingers sinking into her soft rubber skin as they squeezed and rubbed the expanded globes. Feeling its soft sensitive skin as Lou huffed, the pleasure teasing faintly in the back of her mind as she spoke.

“Mmmfff...this feels.... Feels really good, although, I won... wonder if I can get... bigger... and heavier.”

Her eyes looked around, scanning the poolside, her eyes locked onto the garden hose coil as the gears in her head start turning.

“Hey babe, how do you feel if I get inflated with water? I’m not sure if that is your thing but.... mmmf”

You ease off her concerns with another quick smooch to the lips. Nodding as you break off the kiss and rush toward the hose, yanking it with a death grip and turning on the faucet as you ran back with a horny eagerness to see how big your lover can get.

“Wow, you really want to see me get massive huh.”

“Mffffff yea, although I do want to feel your body pin against me as you swell out more....”

“Oh? then lie down on that towel I placed over there; I think I can oblige you.”

You obey, your back landing softly on the fuzzy cotton towel, watching in hypnotic awe as the sun shone through her translucent body. the rays of late afternoon sunlight glimmering through the air inside of her and glinting off her bright scales as her slim form stood before you. dazzling you in a kaleidoscope of colors as she lumbered forth closer and closer.

“You ready? Cause here I come~”

Her rubbery body jiggled on you as she flopped down on you. Her light curvy body bouncing on you like an inflated beachball as she settled her body on you. her light rubber body yielding easily and bouncing away every time you tried to grasp it.

“Aww having some trouble holding me down dear? Here I’ll help you out.”

She pried open the valve on her hip, the air hissing out for a split second before she jammed the hose in. The water splattering within her like a mini waterfall as she yelped at the sensations. You can't blame her as even you can feel the splashing water massage your white, petite chest and tickle you sensitive, lean belly through her thin rubber body, teasing you both as her rubber body squirms in delight as it lays against yours.

"Ahh I can... never get... used to.... How-how good it feels?"

Her body weighing heavier as the hose continuously gushed in more and more water, her light airy form now much more solid as you can finally grasp and tease her. You feel her dense form, getting heavier by the moment as you play with her filling body. Tracing the rapidly growing pools of water in her boobs and belly as she shivered under your touch. With each second more water gushed out of the hose, filling every crevice within her as she exhaled out, letting the air escape through her mouth and deflating before the hose refilled her lost size. Her body not yet expanding as she did her best to replace her innate volume of air with water. Her legs and torso pinning you down as she straddled you tight. Her body getting heavier and denser as you hear the water sloshing in her rising in pitch, just like how the sound of a filling cup rises higher as well. With a smirk she sat on your body, bouncing up and down on it as the hose filled her with more and more water. Each of her bounces growing more forceful as she becomes denser with water as the hose fills her closer and closer to the brink.

"I think... I think that's most of the air out of me..... Ahhh, it feels like I'm getting tii-tightly hugged from the inside out!"

She whimpered out as she collapsed back chest down on you with a hearty "smack." Her latex body jiggling and creaking like a water balloon as more water filled her fuller. The hose gushed relentlessly as with a jolt, her body now started to expand and stretch as the pressure overcame her resistance. Her boobs and belly taking the brunt of the inflation as water flowed downwards and pooled into them, stretching them out bigger as they squished and pinned into your chest. Her belly blowing past the size of a 9-month term pregnancy and billowing into beachball sized territory as her breasts ballooned past H cups and kept swelling bigger. Her puffy, swelling, water filled nipples teasing your hard pink ones as jolts of pleasure flowed through both of you. Like big soft warm rubber fingers gently flicking your weak points as you squirmed under her. Sensing your weakness, she started humping up and down again, her body noisily sloshing with each thrust as she grunted.

"Ha, got you... got you to squirm under... m- me, it fee-feels soo good."

Her teasing remark rang hollow as she yelped, the waterflow shifting within her as you tickled her thin sensitive body with your pointy fingers. Your hands grasped and fondled her growing boobs, feeling them surge past K sized as you feel your fingers being steadily pushed apart by

the relentless pressure. Your thumbs flicked with her bottle cap sized nubs, causing her to squeal in surprised pleasure as her belly started to approach weather balloon sized, round but flattened by the weight of the water as you feel her stretching skin massage your body. You feel her jiggly soft belly spill and flatten against you. Her humping efforts causing her bloated body to wash over you like rolling waves sloshing back and forth on you as she swayed. Her massive boobs engulfed your face, sandwiching your head as you purred and motorboated the twin mounds relentlessly swelling in front of you. Feeling them swing back and forth as she moved her sloshing body with each thrust. An idea formed in your mind as your fingers teased her vulnerable nipples with each thrust, intensifying the sensation as she swung closer to you.

“Ooh it feels... soo good and starting to feel sooo tight!!!”

She moaned as her butt and hips surged to play catchup with her breasts and belly. The stretching skin near her crotch added more pleasure to her lust addled mind as she moaned harder. Her body gurgled as the hose gushed more and even more water into her ballooning blob of a body. Her massive belly and boobs gently grazing the floor as her beachball sized hips swayed to and fro with each pathetic waddling hump she took against you. Trying her best to ease the overwhelming pleasure building up inside of her. Her efforts becoming more labored as it was becoming harder and harder to move her mountainously heavy body.

“Gah.... I’m a big fat orb ... a giant water balloon, just ... just for you.”

She squealed as she puffed up bigger, her humping efforts finally ceased as she huffed in exhausted pleasure, settling on your puny body as her movement dwindled down from the rhythmic sloshing back and forth to just pitiful wiggles and jiggles as she wobbled on of you. The hose pushing more water into her as you feel her skin tense up. The water pressure overcoming gravity as it forcing her distended body to rise higher and become more spherical. She felt her other parts begin to swell, the water pressure swelling her arm, thighs, and legs as they became too sluggish for her to move. You can feel your body’s indent on her soft skin getting shallower and tighter as she rose above you. Her rubber body creaking and groaning in protest as her body grew out into a huge orb bigger than a pickup truck, pinning you under gallons and gallons of water as she howled under the sensation.

“Babe just how big can you get? You look like you are about to burst!”

Your words tinged with pleasure and anticipation as you stared at your beautiful water blimp dominating above you. her rubber skin stretched so tight that you can see the ocean of water trapped in her translucent skin, surging, and gurgling as her skin squealed and creaked in protest as it struggled to stretch even one more inch. The sun shining through her gossamer thin skin and glinting through her shiny spaced-out scales, dazzling you in a kaleidoscope of rainbow

colors as you hear her hide shriek for mercy. The rumble of pressure building within her as the water filled every nook and cranny of her pool toy body, stretching every strip of her tight skin to the absolute limit as she wailed under the immense pleasure thundering through her.

“F-Fuck... mmmmp... soo full... soo tight... I.... can’t hold it... much longer.”

Her voice trembled in anticipation as she summoned all her willpower to force herself to stay in one piece just a little bit longer. Her blimp sized body churning and squeaking under the strain as she desperately fought against the ever-increasing siren call of pleasure to give in. Her weather balloon sized boobs dangling in front of you as her translucent, pink nipples sprayed out twin fine jets of water in a desperate attempt to relieve the pressure. The pressure bliss rampaging through her mind as she cried out.

“Ahh... I’m gonna burst ...I’M GONNA POP!!!!!!”

A tiny pinhole leak sprung out of her straining, membrane thin skin in front of her left, distended tit, spraying you in another fine mist of water as you braced yourself. More and more pinhole leaks sprang from her overstretched skin, like tiny water fountains springing and spreading out across her body as the pressure caused her rubber body to pulse and rumble violently as she screamed out in absolute bliss before...

“-AAAAAAAAAAAAA”

SPLATTTTTTT!!!

Rubber scrap flew everywhere as you got rocked by a tide of water. Pushing you back to the other end of the back yard as all the water she tried to hold surged out everywhere, like a tsunami rampaging a shore. As the water flowed away, you spot Lou, panting and squirming in the epicenter of the detonation, intact, but dazed in absolute bliss as she huffed to catch her breath. You rush over to her, embracing her in a tight hug as you check her body for any injuries.

“You ok babe?”

“Yea, I’m, I’m fine, just... need to come down from that, uffff that felt.... That felt really good...”

She gasped and panted as she recovered, melting in you as you gave a tight hug to her soft rubbery body. after a minute, she grasped your chin and looked you in your eyes as she spoke.

“Would you mind carrying me to bed? I... I would like a massage for after pop care~”
