

SUMMARY: In pursuit of a more attractive body and a thicker behind, Kate encounters a fat assed sexbot intent on giving her a face sitting. And, Kate is injected with a chemical that gives her far more junk in the trunk than she ever had in mind...

Contains: butt expansion, hip expansion, ass expansion focus, thigh expansion, hip expansion, hip growth, weight loss, slight breast expansion, face sitting, size difference, a very bottom heavy figure (:

Kate rubbed her eyes, blinking tens of times before the world finally came into focus. Kate yawned, accidentally rolling out of bed, the impact forcing her to a shocking realization.

She needed to pee!

The young woman quickly ran to the bathroom and did exactly that. Afterwards, she swiftly found a water bottle and reheated a leftover burger from the day before. Kate yawned again, idly eating while she listened to the birds chirp outside and the busy streets cars pass by. Kate fell onto her couch, tuning into the TV she had left on overnight. Groggily gazing out the window Kate eagerly ate her burger, listening to the TV prattle off headlines about a sex crazed android robot running amok. The android was reported to be forcing people to wear ass growing shorts, haphazardly giving women huge butt implants, giving out impromptu butt lifts and even fat transfers. The list went on for much more ass based procedures, but Kate was never really listening in the first place.

The groggy, slightly airheaded Kate could only think about one thing. As she started to fully wake up, Kate felt she could see just a little higher than usual, her seat feeling just a little more padded and just a little more comfy at the same time. She blinked again, her eyes going wide as she felt something... different. It was a strange feeling, but it wasn't at all bad, in fact, Kate felt better than ever now that her body was finally beginning to stir awake, the sheer act of sitting down even felt good! But why? Kate scanned over her body, nothing out of ordinary up top. But the lower she looked, the more of her memory came back.

Oh. *Right...*

Her thighs were much larger than usual! Kate in a sitting position covered the entirety of her little old chair! Before today, Kate was waifishly thin, the bed she slept on was the same one she had when she was a kid,

the chair she sat on was somehow the same one she used in middle school. Never buying new furniture aside, Kate's typically small figure had grown largely, even if it wasn't particularly thick by any means. Kate's new thighs were plump, not large, but definitely had some type of volume, a lot more in comparison to her completely flat bottom half from just the day before. Kate chuckled to herself, a giddy feeling coming over her as she shook her new, wider hips from side to side. Having a butt felt *great!* Even if it was still pretty small, Kate was *loving* her new bubbly backside.

Kate had been extremely thin her entire life. Not unhealthily so, she just always had a stick thin figure, matching her petite height. Kate, despite her petite size, was perfectly soft with bubbly assets all over, they were just too small for her callipygian tastes. Anyone in the world would be more than glad to touch her heart shaped softness, but Kate had always wanted more.

While eating her breakfast burger, Kate idly wondered how she was able to eat like she did without ever gaining weight. It was kinda sad, considering she had always wanted to be more voluptuous and her diet consisted of strictly fatty foods that seemed to have no effect on her. Kate's chest was a generous B cup, which despite not being much, felt like a lot for her figure. Her waist was hourglass thin, though there wasn't much to show off anyway. Finally, Kate's fair skinned face was extremely pretty, reminiscent of a fantasy princess with a button nose and plump pink lips. Her bed bound hair fit the damsel look wonderfully, long, snow blond locks with cutesy curls that bounced along with her small steps. The more Kate appraised her physicality, the more she remembered exactly what had happened last night. As the haze in her head cleared, Kate's mind was pulled back in time, her memories recounting themselves as if they were currently happening.

—

Kate had felt much, much more insecure than usual. Despite her beauty and attractive appearance, a big high-tech city was bound to inspire an insecurity or two in practically anyone. Walking around Big City showed her wondrous sights, high tech streets, amazing food, great music, and of course, beautiful women. Super Big and Important Corporation was in love with their curvy girls, every advertisement they ran on city squares massive holo-screens showed at least one. They were known for mass innovation in the field of body augmentation, from ass growing shorts to boob growing bras, all of which were increasingly popular, though still

uncommon due to high price points.

To make things sexier, SBIC had deployed a small army of sexed up android enforcers to patrol the streets. Each one had either big tits, a fat ass, both, or *more*. Every single time Kate went out for a walk, she saw one of their perfect bodies bouncing past her. Her eyes followed their ample chests, and then when they made it past Kate, her eyes never left their bouncing behinds even as they trailed into the distance. Kate would be a liar if she said she didn't have a thing for pretty girls, but she'd be an even bigger liar if she said she didn't have a thing for thick ones. Getting her head between one of those androids legs would be a dream come true for the girl.

Which is why she decided to commit an extremely minor crime. Kate was surprisingly lewd, rambunctious and generally daring underneath her petite princess visage. She knew Super Big and Important Corporation was at the forefront of expansion based technology, if anything could bring her thin body up to match the bigger girls, it was them. Their android enforcers had also received backlash recently after a few expansion related incidents, though they were all swept under the rug with exorbitant amounts of money. Kate didn't know exactly how these androids made women's assets grow larger, nor did the rest of the general populace, but it was a risk she was willing to take. Kate had always had a thing for their Sexforcer androids anyway, it was killing two birds with one stone! She could potentially get some hot curves of her own, *and* get her hands on one of those robo-thighs!

Kate did not think much longer, Kate rubbed her hands together in anticipation, her eyes scanning the tree dense city center for any possible crime to commit. She had already located one of the sex-bots, now it was time to launch her attack. Kate walked as quickly as she could, finally finding the target of her onslaught.

Kate made sure she was in sight, coughing loudly to catch the sex-bot enforcers attention. Then, Kate stole a tiny piece of bread from a conveniently located bread stand. The owner barely even noticed, Kate was a short thing, barely noticeable, and the piece of bread she took was similarly tiny, it might as well have been a crumb. Kate immediately ran into the distance, the owner rolling his eyes.

Despite the insignificance of the crime, the nearest S.B.I.C Sexforcer analyzed and identified Kate, preparing to launch into action. This

particularly bot was just as Kate liked them, fat boobs and an even fatter ass. She bore a thin waist with deliriously smooth synthetic skin. Above was a pretty face carrying a clear cybernetic flair to it. Underneath the cybernetic enhancements and glowing scanner eyes was a tanned, beautiful middle eastern face, causing Kate to briefly wonder if every one of these androids was custom created. Maybe randomized? She had a ponytail with a stereotypical cop's hat on top of it, whilst her uniform was just a sexed up version of a police woman's; a short skirt leading into a cleavage bearing one piece. Finally, the android woman had on high heels, perfectly matching her already tall stature. The thing eclipsed Kate easily, around 6'3" without the heels and 6'5" with them. Of course, Kate being presented by a thick, tall mommy-esque woman was a massive turn on, Kate could only struggle to run with the growing wetness between her thighs. As it finally finished scanning Kate, its eyes turned red and it began sprinting in but a moment. The android wasn't inhumanly fast but was certainly high above average with seemingly infinite stamina. It took very, very little effort for it to catch Kate, who was tired after running for only a few seconds.

The Sexforcer grabbed Kate by the collar of her shirt, lifting her into the air and bringing her closer for a better look. Kate smiled, giggling as she prepared for her *"punishment"*, the Sexforcer running a quick diagnosis of Kate and the small piece of bread she held.

"DIAGNOSIS:

NAME: KATE BARTHOLOMEW.

AGE: 22.

BIRTHPLACE: BIG CITY.

CATEGORY: LOCAL BURGER JOINT WORKER. RECENTLY APPLIED AT *"MAID FOR YOU CAFE"*, APPLICATION STILL PENDING. CURRENTLY WORKING *"BARTHOLOMEWS BURGERS"* AS A CASHIER. MAKES \$4.00 AN HOUR, A PITIFUL WAGE, ESPECIALLY IN THIS ECONOMY WHERE MINIMUM WAGE IS AT LEAST \$13.00 HIGHER. RECEIVES NO TIPS. QUITE COMEDIC."

The android laughed with a clear synthetic tone, Kate piped in, flailing around whilst in mid air, bound by the strong android's grasp.

"Hey! My dad runs that shop, I would work for free if he let me!" Kate pouted, "Plus, who said you can't tip a cashier!? Shouldn't you be apprehending a senator or something instead of me? Tips should be mandatory!" Kate continued to sass the robot, practically begging for the punishment she wanted while trying not to make it too obvious.

The Sexforcer rolled its eyes, getting closer to gaining AI sentience

just by being a bit annoyed by the girl.

"CRIME HISTORY: MINOR SPRAY PAINTING, BAD MOUTHING AND GENERAL RABBLE-ROUSING. HAS GOTTEN INTO MANY FIGHTS, HAS LOST EVERY TIME. APPEARS TO BE VERY LIKABLE, HAS MADE FRIENDS WITH EACH ASSAILANT AND HAS BEEN SEEN EATING *"BARTHOLOMEWS BURGERS"* WITH THEM AFTERWARDS. DESPITE MAKING SUCH PITIFUL WAGES, IT SEEMS BIG CITY PAYS FOR HER RENT AND MORE DUE TO HER EMPLOYMENT AT A LOCAL SMALL BUSINESS.

ONLINE HISTORY: ATTEMPTED TO SELL NUDES NUMEROUS TIMES. HAS FAILED EVERY TIME DESPITE BEING GENERALLY ATTRACTIVE. NOT CRIMINAL, BUT DISAPPOINTING. PERHAPS I CAN RAISE YOUR CHANCES OF SEX APPEAL BASED SUCCESS?"

A smile peeked through Kate's terrible attempts at hiding her happiness, it was finally time! The Sexforcer had analyzed Kate's entire history in quite the embarrassing fashion, the girl was essentially just trying her best to support the family business, even resorting to violence to defend her father's name. She was certainly rambunctious, most people who beat her ended up sympathizing, then enjoying the food afterwards, quickly becoming repeat customers. In fact, most of Kate's friends had actually beaten her in a fight at least once, it was a wonder she kept doing it knowing she probably wouldn't win. But every day Kate fought those who disrespected her father's restaurant, the more she spread the word and the more popular Bartholomew's Burgers became. It was hard to get fame in such a Big City, but nowadays her father was making a stable income, achieving his dream, all thanks to the petite girl who'd fight in the name of a burger.

The sexy android's eyes returned to green as a techy beeping noise emanated from within her. "I FEEL GREAT SYMPATHY FOR YOU, KATE BARTHOLOMEW. BASED ON YOUR HISTORY, IT SEEMS A BOOST IN SEX APPEAL MAY WORK WONDERS. UPON FURTHER ANALYSIS, I RECALL I HAVE RECENTLY BEEN GRANTED AN EXPERIMENTAL INJECTION, WOULD YOU LIKE TO TRY IT? I'M SURE IT WOULD WORK WONDERS ON A PETITE GIRL LIKE YOU."

Kate nodded eagerly, still being held in the air.

"THEN IT WILL BE DONE." The Android stated, her police outfit instantaneously morphing into that of a nurses, with a skirt so high Kate could see her glistening, perfectly human pussy creeping out from between her thick thighs. Kate was going wild, her own thighs slickening as

the androids normal human hand morphed in size and shape until it became a perfect syringe, filled with a liquid resembling silicone, but a bit less transparent.

"BEFORE INJECTION, PATIENT MUST BE SUBDUED AND PROVIDED APPROPRIATE ANESTHESIA FOR MEDICAL PROFILE." The robot beeped, dropping Kate onto the ground, flipping her over and laying her head upwards. At this view, Kate was treated to the massive android woman from below, her face completely obstructed by her generous chest, whilst her thighs rubbed together beneath.

"PREPARE FOR ANESTHESIA."

The Sexforcer wasted no time, crouching down and placing its moist vagina directly on top of Kate's mouth. This is what she had been waiting for her entire life! A thick, big titted, tall babe to sit on her face was a dream come true! She marveled at how human these robots were, technology had advanced so far Kate was thinking of buying her own sexbot at this point.

Kate licked the androids juicy folds eagerly, lapping up and nuzzling into the sexforcers clit with reckless abandon. The robot moaned and groaned on top of her, moving her hips back and forth across Kate's face. Kate reached up, groping at the android woman's fat, jiggling ass. Despite the growing crowd, the robo-woman continued to grind, forcing more and more of that lovely anesthesia into Kate's body while getting a million pings of robotic pleasure each time. To Kate's great pleasure, while administering the anesthesia, the sexforcer also provided her with ample oxygen directly into her mouth. Kate could eat her out forever! It was the best day ever!

Sadly, Kate would not be able to. The robot began to grind across Kate's mouth faster and faster, moaning louder until she briefly shuddered atop of the petty criminal. The voluptuous tanned thighs tightened across Kate's face, forcing one last payload of anesthesia straight into her waiting nose. At the same time, Kate was forced to orgasm synchronously, the chemicals had firmly taken root. As Kate's legs buckled and shook, she immediately drifted off to sleep. The Sexforcer's anesthesia had worked perfectly. The android dusted herself off, proud of a job well done, her infinite stamina allowing her to recover from the orgasm without any downtime.

Kate was quickly flipped over, allowing her small, heart-shaped ass full access. The bot had received specific protocol along with this new prototype formula; inject every inch of the patient's lower half. The Sexforcer did exactly that, injecting Kate's hips, her upper and lower ass, her thighs, the front of her thighs, even her calves to be safe. This formula was certain to give the girl some much needed booty, injecting her calves would allow her to carry it more easily while injecting her hips would make them wide enough to hold it all. Though, the bot was curious about one spot.

The patient's vagina. Did that count as "*every inch*"? What about her asshole? There was no telling. Running a quick diagnostic, the android received her results. Injecting the patient's orifices would connect their pleasure centers with her hindquarters, providing great pleasure when these locations inevitably grew. Even the smallest touch on her ass would send pleasure directly to both of her holes... The Sexforcer grinned to itself, its AI gaining more of an appreciation for the lewd things it had been programmed to represent. An ass lover was being born.

The android shrugged. Pleasure from booty based contact? Sounded good to her. With two quick injections, Kate was complete. The robot waved away the crowd, assuring them the threat had been dealt with. The android decided to go the extra mile, deciding to carry Kate all the way home. She had gained an appreciation for the feisty girl, especially after such pleasurable activity.

This Sexforcer had certainly gained some form of sentience, it was very doubtful Super Big and Important Corporation had intended to create a bot capable of mass sexy expansion. With that, the sexforcer quickly climbed up Kate's house, easily identifying her room, opening the window with one of her various techno-majiggies, and leaving Kate sound asleep on her bed.

SBIC guaranteed excellent service, the sexforcer even left a card detailing how to contact them, and by extension, her. The android even left cutesy hearts written on the card, had the newly born ass loving AI gained a crush?

"THIS WAS A VERY ENJOYABLE EXPERIENCE, KATE BARTHOLOMEW. I LOOK FORWARD TO SEEING YOU GROW. FOR MYSELF, I INTEND TO TRY MORE OF THESE *EXPERIMENTS* ON OTHERS."

The Sexforcer brushed Kate's pretty, but messy, hair to the side, leaving one small kiss on her forehead. She spoke loudly, yet softer than usual, before making her way back through the window.

"THANK YOU FOR THE ORGASM, KATE BARTHOLOMEW. SLEEP WELL, I HOPE MY SERVICES HAVE BEEN SATISFACTORY."

—

Kate moved her ass back and forth on her chair, grinning ear to ear as the new pleasure finally began to sink in, bringing her back to reality. Her pussy had grown firmly moist during her recollection, gladly remembering the face sitting that thick android gave her. Kate couldn't possibly forget the bodacious robo-babe that made her ass feel so much better. She wanted to be just like her! Kate **wanted** to be hot, she **wanted** to be curvy. And despite being an ass girl, she even kinda wanted bigger tits! Kate was so eager her excitement practically soaked through her pajama pants, her ass sending so many waves of pleasure to her brain it was hard for Kate to stop grinding against the chair. Kate grinded into the chair like it was a lover, her new booty bouncing with every movement.

To her excitement, it wasn't even big yet! It felt like Kate was receiving the greatest massage in history from the hottest woman she'd ever met, Kate would *beg* for a happy ending if she really was. Now, it was hard to imagine what things would be like if she got bigger! A small ass feeling this good was already *insane*. Despite her enjoyment all Kate could think about, all she could wonder, was how she could possibly get her booty *bigger*. Maybe that android has more to give? Throughout her entire life she could never gain weight, despite her poor diet of daily burgers. Maybe she'd need to eat two times the food? Maybe start squatting? Kate groaned, getting thick when she was stick thin would be *very hard*, maybe she should just enjoy what she has...

And Kate was enjoying her body more than ever. As Kate forced herself to stop twerking her ass into the chair, she was immediately pushed just a bit higher into the air! Kate could feel her hips vibrate, shaking as they plumped up, her bones cracking as they widened and padded themselves with voluptuous thickness. How could a gel widen her hips? Kate didn't even care, all she wanted was a bigger butt. Kate immediately continued her booty bouncing, jiggling and twerking into the chair like it paid for a lap dance, trying her hardest to coax more growth forward. Kate had to admit, this was all *extremely* hot, she was getting off

just by *feeling* her ass shake! That S.B.I.C Sexforcer worked absolute magic, maybe she should get a job with them instead! Kate continued to fondle herself, her mouth falling open as an open wide sultry smile crossed her lips, her eyes nearly rolling back just from pure enjoyment.

Kate moaned yet again, yelping as her ass forcefully grew even further. Kate palmed her cheeks, her fingers sinking far further than they ever had before. All she felt was pure, unabated pleasure, sent straight to her lewd snatch and the most sensitive areas of her ass. Kate couldn't help herself, she sat in the chair playing with her growing booty until she screamed out in the best orgasm of her life, her butt finalizing it's growth with one more surge as she climaxed. Kate's eyes rolled further back into her head, her mouth staying wide open as she drifted off to sleep yet again.

—

Hours later, Kate finally recovered. Her mind had cleared, she had become fully conscious. Kate woke up on the floor, a distinct dampness between her thighs and a still slick chair on the ground next to her. Her first thought upon waking up?

Her new ass!

Kate shook herself awake again and immediately ran to the mirror, desperate to check out her new figure. As soon as she reached the mirror, her eyes met the best body she could have ever imagined! Kate's petite chest and thin waist were gloriously met by a pair of wide, thick hips! Kate couldn't help but smile, her hips certainly did not lie, and neither did her new thicker thighs! Kate immediately took her phone out, posing for quite a few ass focused photos. As soon as she turned her new cheeks to the mirror, she was met with an ass some would kill for, both to touch and to have. It wasn't particularly *big*, but for her size it was extremely noticeable, heart shaped, bubbly and perfectly shaped. Kate looked like an ass model! To her great pleasure, it was far softer than any ass she'd touched, whatever Kate had been injected with was better than any surgery or exercise! Her pajama pants sank in between her crack, deliciously outlining her ass, her thighs and even her new camel toe. Kate's waist looked even thinner than ever, she was starting to think it actually had gotten smaller.

Wait... Kate poked at her arms, felt at her waist and touched her chin.

Had she lost weight? It seemed the gel in her butt had somehow sucked all the fat from her body, and she didn't even have that much to begin with! Sure, she had a bit of a belly, definitely where all the burger weight had gone, but now it was completely... gone! Her waist had even been pulled a bit inwards, Kate was now essentially a model! To Kate's pleasure, her chest had grown too! The residual fat had been converted into her B cup breasts, expanding them to a solid C cup, looking even bigger due to her smaller frame. Kate looked good, but this was a bit worrisome, no matter how good she looked. The thick, princess-like woman brushed her hair away, eyeing the card the Sexforcer left. It contained a number from Super Big and Important Corporation, along with the Sexforcers personal number. Since when did robot servants give out their phone numbers? Kate smiled to herself, giggling as she realized that she'd attracted her very own android! As much as Kate wanted to call the sexdroid over as soon as possible, calling S.B.I.C was her top priority.

Kate was connected with customer services, which then connected her with a local plastic surgeon under S.B.I.C employment. She was sent an address and quickly departed, leaving the home in the tightest pair of leggings she could find. Kate couldn't resist sauntering, her new butt attracting tens of eager eyes with every bounce, despite her short height. It felt absolutely amazing, Kate often pretended to drop something so she could seductively bend over just for fun, her ass forming a bubbly heart as she reached towards the ground each time. On the subway trip across town, Kate stood in the most crowded area, purposefully pushing her ass against anyone she was near. Her smug smile was evident, everyone she bounced or grinded into had to try their very hardest to hide obvious erections. The best part? Kate's ass sent pleasure signals straight to her brain with even the slightest rub, she was getting off on doing it! It was a bit unethical, but she didn't care, no one would complain about a nice ass rubbing against them! Eventually, Kate hopped out of the subway with a pep in her step, giggling as she felt eyes watch her bounce away.

Kate ended up right outside of Doctor Albert's plastic surgery clinic. Only a few minutes of waiting later, Kate was scanned with some high tech mumbo jumbo, then was sat down. Sitting down remained a pleasurable act, though not as orgasm inducing as before, quite livable actually. The feeling of her ass spreading across the chair though? Much better than ever before, sitting with padding was a completely new experience, aside from the pleasure Kate still had a lot to get used to.

"Unfortunately Kate, I cannot find a way to remove the gel." Doctor Albert stated plainly, with a tinge of regret followed by a brief pause. Kate tilted her head to the side, a bit confused on why he was talking about *removing* it when she *wanted* to have a fat ass.

"I've tried *everything*. Every extraction method would certainly fail, any methods of neutralizing the gel are calculated to fail, even the highest grade scans say this... *ass*, for lack of a better word, has firmly become a part of you. No one has ever encountered such an interesting phenomena. The experimental injection Sexforcer B0-77 gave you was completely unsanctioned, not at all found in our database."

Kate smiled and heartily laughed, slapping her knee. Doctor Albert raised an eyebrow, assuming the patient was having a mental breakdown. Albert hesitated for a moment, waiting for Kate to stop giggling, but she never did. Albert spoke loudly, cutting her off in the process.

"Due to your circumstances of simply picking up a crumb of stale bread, it appears the Sexforcer was out of line when punishing you. S.B.I.C is prepared to generously compensate you for your grievances, cooperation and *discretion*. I will personally contact the R&D team in hopes we can find some form of removal method, but-

Kate simply grinned, her open mouth letting out a quiet moan, her high-pitched voice making it sound even more lewd than it otherwise would. Kate was grinding into her chair again, her ass shaking the entire time! Albert sighed, "Okay... well, I'll just wire the payment to your account,"

Kate snapped out of her booty induced haze, interrupting the doctor again.

"Doctor Albert, I'll take the money and research or whatever, but I actually want it to get *bigger!*" Kate gestured by throwing her hands into the air, "If you can make my ass even better, I won't sue you or go public," Kate paused, allowing Albert time to roll his eyes before rubbing his chin in thought.

"...I'll still take the money, though." Kate finished, running a hand through her hair with a small chuckle. Albert rolled his eyes a second time, this girl sure was strange. Despite her strangeness, Kate being so eager made things a *lot* easier, S.B.I.C wouldn't even have to brainwash her, bribe her, or take any other extreme action in order to brush this incident under the rug. Albert swiveled his chair around to a nearby high-tech pad device, quickly typing in a few commands. Kate's phone vibrated, a very, very

lucrative payment landing directly into her account. Her eyes went wide and her previous smirk evolved into a full beaming smile, stealing that piece of bread was the best thing that ever happened to her!

But... She still wanted a fatter ass. With this much money, she could have it, but why pay for surgery, expansion or other alteration methods when Doctor Albert could do it for free? If this gel grew, Kate's ass would be completely unique! No fat ass could match this gels perfectly soft, unnaturally bouncy composition, nor could anything else grow her hips to match. Kate quickly thanked the doctor, nodding before staring directly into his eyes. It was clear what she wanted, her intentions stabbed him with just a gaze.

Albert couldn't resist rolling his eyes again. How could so much cash be less important than getting a bigger bum? It was as if enough money to never work another day in her life was completely *worthless* compared to the mere *idea* of a fat ass. This girl was determined. Albert grinned, she was a fun change of pace in an industry where most people were *victims* of their expansion, rather than *enjoyers* of it.

Doctor Albert pushed his glasses up, brushing his lab coat to the side as he gestured his other hand to a nearby high-tech screen. Kate's eyes glimmered as the screen lit up, the display brightening until a photo of Kate's ass was plastered across it. The display included a before and after photo, an external photo of her bare bubbly ass (*that Kate found oddly sexy,*) and an internal scan of the gel. Over the past morning Kate's butt had grown from completely and utterly flat to something you'd see on someone who at the very minimum walked often and had *great* genetics. It still wasn't exactly big, but it's heart shaped softness was much more than enough to satisfy. Even her thighs and hips were bigger, to the point they didn't look completely natural on her extremely thin, waifish frame. Even without her ass being very big compared to thicker girls it gave Kate a deliciously bottom heavy figure with hips that she couldn't *wait* to get moving.

"I've taken time to contact S.B.I.C, their head researcher and R&D lead, Kev, took a bit of time to analyze the gel personally. We've found the gel to be some sort of living mixture of fat and silicone, creating the perfect composition of softness and perkiness. Despite being living, it acts no different than your other cells, though it does increase pleasure and sensitivity in the described area. Since it will quite literally become your ass, it will also gain access to your hips and thighs, allowing it to even modify your bones to become wider or stronger, presumably to carry all

that... *thickness*." Doctor Albert paused, waiting for Kate to finish giggling.

"Due to its symbiotic properties, the gel will absorb the patient's unnecessary fat all across the body, converting it into more posterior flesh or breast tissue, presumably to make the host more attractive to potential mates. Of course, this will have the effect of spreading itself to your children, as the size and composition gained will integrate with your genetics, spreading the new ever growing ass across your entire family, if you choose to have one. And since it integrates with your DNA and genome, it will be impossible to effectively work off, making any growth practically permanent." Albert took a moment to breathe, that sure was a lot of explanation! Kate eagerly smiled on the edge of her seat, listening for more goodies.

"Finally, since this gel absorbs fat from the body, it will never take you to an unhealthy degree. Its end goal is to make you attractive, so any weight loss will be in simple areas like the stomach, waist and arms, but you'll always be perfectly healthy. Meanwhile, any gain will be stereotypically attractive places, such as lips and breasts, but the large majority will be in the posterior. Due to this, any particularly greasy or fatty foods will immediately be converted into new size, if you want to stay small, non fatty foods like vegetables and fruits will be ideal. The size gained will be dependent on the food you eat, a heavy burger would be guaranteed to make you bigger. It also seems the gel is self learning, if you were to chew bubblegum or cotton candy, I wouldn't be surprised if it grew bouncier or more lightweight. Currently, the gel is completely dormant, it will not grow further unless I inject it with a few fatty cells, activating its true self learning absorption potential." The doctor put his hands together and took a deep breath, waiting for Kate to answer.

It didn't take long, Kate nodded so much she gave herself whiplash. *"Yes! Yes! Do it now!"* Kate beamed, pumping her fists in anticipation. Doctor Albert chuckled, this girl was one of a kind.

"It will be done."

Doctor Albert sat Kate down ass up across the operation table, getting his own eyeful of the woman's plump booty. This injection was so specific it couldn't possibly be replicated, requiring multiple layers of tech and knowledge no one could create without exorbitant funds and secret S.B.I.C knowledge. Two twin syringes quickly pressed into Kate's ass cheeks, the futuristic technology not at all hurting or even leaving a mark. Kate

grinned to herself, almost immediately feeling the effects. A warmth spread through Kate's lower half as the gel stabilized, integrating completely with Kate's body with no further side effects. Feeling her ass grow Kate's grin went from happy to devilish, a beeping sound bringing her attention to a monitor nearby.

A scan appeared on the largest monitor, zoomed in on Kate's ass cheeks. Each cell was being rapidly enveloped by a white substance similar to silicone in look and feel but much softer and much more gravity defying. Even Kate's hip bones were coated in the material, her lower half was gearing up to be truly thick in every way. She'd be jamming doorways in no time! The material replicated itself by absorbing excess fat, attaching to her cells, changing her DNA itself to permanently turn her booty into a fat, bouncy, hyper soft ass. Not only would Kate be thick forever, any weight she gained would be only booty, hips and thighs. Her altered hip bones always growing to accommodate while her legs strengthened to carry it all with ease. And since it altered her genome and DNA, there was no possible way to ever lose that thickness again, the gel was a part of her. The symbiotic gel integrated into the host's body itself, allowing autonomous creation of ass-flesh as if it was natural for Kate.

With such a deep connection to her body, the gel further altered her brain, increasing her attraction to fat asses even more than she had already felt. Not only to other women's, but her own. Now, nothing would be more attractive than a bouncy butt, and nothing more arousing than having her own fondled, ogled, seen, touched and felt. The pleasure she felt from her ass while just sitting on it earlier would be nothing in comparison to what she'd feel now, there was no telling what a nice slap on that rump would do, and no telling if she could ever sit down without orgasming again. With what the doctor was seeing on the scan, it was *guaranteed* these genetic changes would carry on even to her children. He had inadvertently started a lineage of women with asses that would never stop getting bigger. With an ass and lusts like that, Doctor Albert found it nearly impossible that Kate *wouldn't* get pregnant, who could possibly resist? For the rest of her life, Kate's ass would continue to grow with the more fatty foods she ate.

The injectors detached from Kate, her ass remaining the same size as it was. Despite this, she could tell exactly what had happened, and she was absolutely ecstatic!

"Thank you so much Albert!" Kate beamed, jumping up to pull Albert

into the biggest hug the short girl could give. Albert felt weirdly happy, the girl's eagerness was unmatched. Doctor Albert backed up, his concern returning.

"Kate, just make sure you're careful. A self learning ass that grows from fatty foods is certain to be dangerous. I can't be sure it will ever slow down, so be sure to take it slow."

Kate once again, wasn't listening. Kate quickly looked back at her bank account and was indeed much richer. She had won three times in only 24 hours! Had her face sat on by that thick robo-babe, received enough money to live for the rest of her life, and now she was growing an ass! Kate was certain to eat more than ever as soon as she got home, she had a booty to grow!

END OF CHAPTER 1
