

“Alright sis, the stream is almost up and running! We have just a few more things to set up and you’ll be good to start!” Uni said to Noire, the CPU Candidate typing rapidly on a keyboard. Noire was typing a few things on her phone, letting various members of the Basilicom staff know that she is not to be disturbed over the next half hour.

“Thanks Uni, I’ll be sure to ace this in one go! We’ll be live, so I can’t afford any major mistakes. As such, we need to be as professional as possible.” Noire had such pride in her work, eyes closed and waving her finger. She brought a Lastation V Pro to a nearby table, along with a pair of controllers to put on top of it.

“Yeah, I know we need to be professional, but isn’t it a bit unprofessional to be using an experimental model of the Lastation V Pro instead of one of the more finalized versions?” Marvy asked, the shinobi working on setting up the cameras and lighting for Noire. Noire waved off the worries Noire had, a nervous chuckle escaping her lips.

“Ahaha, whaaat? No way, it’s totally fine. Besides, the developers wouldn’t let me get a more final model. They have them under lock and key since the base Lastation V leaked out to the public before the release date.” Noire sighed, upset even a goddess such as herself was denied something. Even so, Noire felt that the visuals of the machine itself were what mattered most here.

“As much as I hate to go against you sis, Marvy has a point. But, if this is how it has to be, I won’t fight you on it. Let’s just hope it doesn’t do anything wrong, like how the Lastation IV kept shutting down during the presentation due to how poorly it vents out heat.” Uni remembered that stream, and how much of a nightmare it was. Not to mention, public reception for the console suffered for it, even if the console wound up being extremely successful.

“D-Don’t worry, it’ll be fine! Besides, I’m a goddess, I have the wisdom to work around any issues! Although there was that one developer, she had to um, take a leave for a while after fiddling with this one, and is still on vacation apparently.” Noire tried to murmur that last part, but Marvy was rather quick to catch it. An eyebrow raised, the shinobi wasn’t sure if she heard that right.

Wait, what do you mean a developer who had the console is still on leave? Why did she have to go on vacation? Not to mention, how long is she on vacation for?” Marvy questioned, wondering if the console was potentially dangerous. Something like this was unheard of to her, the only other example she could think of being one of Planeptune’s Hedgehog level designers needing a break after making a game many years ago due to exhaustion.

“Wait, that was what the developer had to go on vacation for? I mean, I don’t know the reason, and we seemingly aren’t allowed to know, but how did you get your hands on this model if that’s the case?” Uni asked, looking back at her sister with a bit of confusion.

“Well, it was the only one I could reasonably get my hands on! You two are worrying about this too much. It should all be fine. Probably.” Noire waved her hand at the two, as if trying to shoo off any concerns they may have.

“*Sigh*, alright, well if that’s truly what you want, we won’t stop you. Just be careful, okay Noire? I’m your guardian shinobi, but if this thing explodes or something I can only do so much.” Marvy felt nervous about this now, unsure of what was wrong with the Lastation V Pro Noire had taken.

“Alright, I’ll take caution with it. Besides, I have Nep Bulls and other healing items if worst comes to worst.” Noire gave a confident shrug, taking the various cords of the Lastation V

Pro, and plugging them into the wall and the TV, giving the console a bit of time to power up before the stream.

“W-Wait, what do you mean blows up?! Whatever, if Noire gets hurt or whatever it should be her fault! Let’s just get this thing rolling, we’ll be live soon!” Uni said, getting the “stream starting soon” screen prompted on the screen. The chat was flooded with messages already, questions about what kind of announcements there would be.

“Teleprompter is on. Noire, you’ll be live in one minute and streaming to MeTube. Anything else before we press play on this?” Marvy asked, looking over all the equipment to make sure it was functioning properly. Noire shook her head.

“Just make sure everything runs smoothly. Though sadly I have to do all this alone, so just moderate the chat, fix stuff if anything goes wrong, and no matter what, don't come in frame or be picked up by the mic.” Noire demanded, which Marvy and Uni nodded in agreement to. Uni typed a few introduction messages in the chat, greeting the chatters.

“Okay sis, you’re live in five... four... three... two...” Uni counted Noire down, before pressing the scene change button on the keyboard, the view shifting from “Start Soon!” to Noire herself. Noire took a deep breath just before this, and put on her best smile.

“Hello to all citizens of Gamindustri, as you already know I am Lady Noire, also known as Black Heart! Our developers have been hard at work providing the best games we can, and recognize that perhaps its time for an upgrade!” Noire spoke with cheer, pumping a fist into the air, her moderate chest bouncing for the camera.

“Well, allow me to introduce to you what is the latest and greatest in gaming technology. Introducing to you, the Lastation V Pro!” Noire then grabbed the console off the nearby table,

and pressed it against the bottom of her chest. What she did not notice, however, is that her chest briefly flashed blue upon holding the console in her hands.

“Now, you may be wondering about our specs of our console.” Noire then began to read from her script, Uni and Marvy breathing a sigh of relief. There was something weird going on with the rare chat mentioning a faint blue glow they saw for a brief moment, but it was nothing important.

“Everything is going smoothly at least, so we can just- Wait, what?” Uni was whispering with Marvy, relieved the stream was going well so far, when a few more chat members began to speak up about something the two found utterly ridiculous and for sure not safe for work!

- > yo isnt black ❤️'s boobs gettin larger?
- > does nowa have balloons in her bra
- > lol just show us the price tag already
- > big bobs? snt taht vert's thing?
- > ***Thank you to BlckH3rtFan69 for the 3 years of subs!***

“What is the chat going on about? Noire’s boobs are kinda big but not that biiiiiiiiIIIIG?!” Marvy’s whisper grew louder until eventually having to cover her mouth to not get too loud, her eyes widened as she turned back from the chat to look at the stream, seeing Noire’s boobs have doubled in size. What once were maybe baseball sized were now swelling outwards towards the size of Marvy’s breasts!

“What could be the cause of- Oh, oh don’t tell me the Lastation V Pro is doing this.” Marvy finally realized, that light glow the chat mentioned earlier on her body, and from the console, now her breasts were swelling out. This console was experimental for a reason, as for some reason it caused growth in Noire!

“What the [CENSORED]? W-We thought it could explode like a bomb, not explode her chest size! What do we do? The chat is starting to catch on!” Uni was in a panicked whisper, trying to not make it obvious to her sister something was wrong. Luckily, Noire has yet to notice her breasts have begun to grow, nor that anything was wrong.

“With enhanced graphics, **(bwoomph!)** performance **(bwoomph!)** and framerate, **(bwoomph!)** you won’t find anything better on the console market! This machine can do it all! **(bwoomph!)**” Noire kept up her speech, and it seemed like every time she said something positive about the console, her chest size steadily went up!

“I-If we say anything about it or stop the stream now, it will be a PR disaster. I know her chest is getting larger, but maybe if she stays on script we can get out of this without her getting too big.” Marvy tried to reason, watching Noire’s boobs already surpass her own, each compliment causing further swelling.

“I really don’t like where this is going, but if you really think so. Sis is usually very good about remaining on task.” Uni whispered back, seeming to at least partially agree that they could make it out of this without Noire getting too big, and potentially, somehow pull off a PR saving throw once this was all done.

> Yeah, her boobs are totally getting larger. Is this a Lastation V Pro graphics special effects show off thing?

> no way fr? her boobs are getting huge dude!

> busting it down sexual style in here i see!

> Want a break from the ads? Try Neppify Premium today!

> I really hope she does a bit of a jump soon, I wanna see some jiggle

“P-Perverts! We have to start punishing them! Like we’d ever allow content like that on our consoles!” Uni puffed her cheeks, and began to frantically type in the chat to scold them for talking about her sister like that. Marvy sighed, getting on a laptop next to her to try deleting and banning members.

“Yeah, like you’d ever. Kaguran Senura and Alpha Dungeon Life, **cough cough**.” Marvy sarcastically said, admittedly feeling a bit peeved that her series has not seen anything on the Lastation consoles in quite some time due to the censorship of the platforms, yet the goddesses were more than willing to have a crossover with her series without her or Tamsoft as playable characters.

“Not to mention, we have some cool new tech, called game enhancers! **(bwoomph!)** Take any Lastation 4 game and put it in the Lastation 5 Pro, and it can auto enhance the graphics **(bwoomph!)**, the frame rate **(bwoomph!)**, and we even included a few built in fixes! **(bwoomph!)**” Noire kept on bragging, her top struggling to stay on as it showed off that ample chest of her’s.

“Those things are even bigger than Yellow Heart’s. Is her top stretchy or something?” Marvy asked, wondering just how Noire’s clothes were handling her breasts swelling outwards so well. Uni remembered that in fact, it was, breathing a sigh of relief as she typed away in the chat..

“We made a decent number of Noire’s clothes stretchy due to her cosplay hobby. So, if something were to happen like she gains weight, they can stay on. But, not forever.” Uni’s implications were loud and clear, despite being a whisper. Noire’s top wouldn’t last forever if she went off script, so it was seemingly all up to Noire to wrap up the show quickly.

> My sister isn't going through any swelling, stop mentioning it and just enjoy the livestream!

> User *smallchestsbest* Banned

> I wonder if she took growth pills or something? Maybe this is some enhanced trolling from Noire?

> User **BIGBOOBSBEST** Banned

> Dang, the Lastation V Pro looks super cool. I already have a Lastation V but I may just pick up this one to review it.

“I think at this point, we can call those things basketballs. At least the script is coming to a close, I can't ban people fast enough.” Marvy sighed, as it felt like for every one chat member she had to ban, three more would take their place and rave on about Noire and her massive, swelling breasts.

“Oh, right, I should probably show live examples of gameplay! I showed prerecorded examples, but showing it for everyone to see here and now really shows off the console!” Noire cheekily smirked to the camera, walking to the TV and plugging in the HDMI cable, taking a seat on her couch.

“W-What?! Noire, no! You can't go off script now of all times!” Uni was in panic mode, but she couldn't get loud enough to save her sister. Not only that, when Noire plugged in the HDMI cable, both herself and Marvy could feel a bit of a tingly sensation in their bodies as they both briefly glowed blue.

“Mmnggh, I'd know that feeling from a fetish fan service scene anywhere. Oh no.” Marvy groaned, looking down at her body as Noire booted up the console, still oblivious to all that was happening to them. Uni looked to Marvy, feeling confused as to what she meant.

“What do you mean by that Marvy? Wait, don’t tell me we’re- mmngh, we’re totally starting to grow as well, aren’t we?” Uni asked, letting out a sigh. Reluctantly, Uni looked back at her butt, feeling her panties slowly begin to wedge between her swelling cheeks.

“So, let me show you a great example of a Lastation V Pro running a Lastation IV game, Personality 5 Royalty! As you can see, the graphics look amazing (**bwoomph!**) the framerate and performance is improved (**bwoomph!**), and everything looks upscaled (**bwoomph!**)!” Noire complimented her console, Uni trying to not moan as she looked to Marvy, who was handling her growth well.

“You get used to it with time, but it seems Noire is too distracted in the presentation to notice the pleasure.” Marvy huffed, trying to not moan as well, but handling it far better than Uni. Unlike Noire, who had exclusively breast growth, and Uni who had only butt growth, Marvy had a slightly slower but evened out hourglass expansion.

> im really liking thos “graphix” if ya get what i mean

> BANNED, YOU’RE ALL SO BANNED!

> *User ArfoireRulez Is Banned*

> geez, the mods are really going all out, huh?

> *User ArfoireDroolz Is Banned*

“Well, i-it feels kind of, sort of, maybe good. But we can’t be showing this- nng! To the public. Also why does the chat have to be so weird about this?” Uni complained, crossing her arms. Another compliment from Noire, another stage of growth. Uni’s face was bright red as she watched Noire fight a peach demon, Uni’s own peach feeling so tingly with each burst of growth.

“Just try to not get too addicted to it, w-we really have to get her attention as soon as possible, or end the stream.” Marvy whimpered, her single shirt button barely hanging on for

dear life, her skirt lifting up to reveal her already large butt had grown significantly. While not quite as large as Uni or Noire, her growth was evened out compared to their rapidly increasing one sidedness.

“Oh, let’s move on to the actual Lastation V games to show the upgrades those can have! You can clearly see just how graphically advanced they are!” Noire tried to claim, but to be frank, they looked nearly the exact same. The chat, however, had taken a shocking turn.

> Moderator **QSugarpowder** has started a betting poll: “Will Noire’s top last through the stream, or will it burst off and reveal those growing milk jugs?”

> Options: Top Survives. **VS.** Top Rips To Shreds.

> Wooah Q’s being super based, that’s awesome! I think it’s totally going to rip, that fabric looks durable but not durable enough.

> I just got here, what’s going on? Is Lady Black Heart doing a gameplay livest- HOLY BONGHONGALOHOOGS?!?!?!?!?!?!?!?!

“Grrr, now they’re making bets on it? I can’t believe them, my sister’s top would never ju-”

SHRIIIIIIIIP-

“H-Huh?” Uni took a step back, and on the ground were her panties. Extremely wet near the crotch, they were torn to shreds. Noire looked back for a brief moment with widened eyes, thinking the stream was almost ruined, but luckily the chat hadn’t noticed them yet.

“I-It’s okay Uni, I know a um, really good place to get some new clothes for all of us after this. I think they also might, maybe, potentially sell in our size. For now we need to consider turning off the stream, before it’s too late!” Marvy said in trying to comfort Uni, but Uni’s face shifted from shock to brief arousal.

“Well, I mean we can, but maybe I can get some boobs? J-Just a cup or- Hnngh!” Uni grit her teeth, suddenly looking down at her dress and seeing her breasts begin to swell. Though on the screen, they could see Noire’s areola were starting to poke out from her top.

- > woah woah woah, are we actually about to see her boobs???
- > might be an 18+ stream after all, get ready to see some mad tiddies everyone!
- > think those things have milk in ‘em?
- > Get BashBall Deluxe On Smoke Now! CrashBall Deluxe is on sale for only one-hundred and forty-nine credits!
- > There’s no way those things are real right?! If so, how do I get a pair like that?!
- > Lady Noire, please smother me!

“Uni, we have to end the stream now. Your sister’s integrity is on the line.” Marvy hurriedly whispered, but Uni was in love with the fact that she was finally getting a rack. Her G-Cup breasts swayed with each movement, while her globe sized ass cheeks wobbled with the slightest movement.

“H-Hold on, we can let her wrap it up, she’s almost done!” Uni insisted, both being serious, but also wanting larger breasts. Marvy’s basketball sized breasts and ass jiggled with each movement, and her button finally popped off. Seeing as to how Uni refused to end the stream, Marvy took it into her own hands, grabbing the mouse from Uni’s hand and trying to navigate to any button that would stop the stream.

“Finally, I think you should all know that this console will sell at 126,000 Credits (\$800 USD), which is a very fair price for this wonderful machine! I hope you all have a wonderful time, and now the chat should be showing up for me to answer questions!” Noire happily said, but Marvy had finally clicked the “end stream” button, the end screen of the stream opening up right as a loud ripping sound could be heard, Noire’s top came clean off with her breasts bouncing up and down in a drastic, heavy motion.

“Noire, look down, and unplug the console already! Marvy barked at Noire, who suddenly turned back to them. Her eyes widened in shock at how they had gotten so big, and then looking down, she saw a pair of breasts that had grown large enough to be down to her belly button!

“What? Why did you two end the stream so early- GYAH?!” Noire looked down, and saw her breasts and how huge they were. She immediately went to turn off the console, grabbing the power cord and yanking it out from the wall. At that moment, all their growth stopped, but Noire had tons of questions.

“Why am I so big?! Why are you two so big?! Did the console do this?! Why did my stream have to go so wrong?! Why did my team make a console like this?! Is this permanent?!” Noire asked tons of questions while groping her breasts, walking over to Uni and Marvy to look at how large they had grown.

“Y-Yeah, what a r-real shame,ahaha...” Uni tried to act like she wasn’t really enjoying this, but the fact she had breasts at all made her perfectly fine with the outcome. She was looking down at her own breasts, until she noticed Noire staring down at her and tapping her foot.

“... A real shame indeed, this isn’t too good! We wanted to warn you, but you told us to not stop or disturb you! So we reluctantly ran the stream until there was no other choice but to

end it!” Uni waved her hands in front of her, her assets jiggling, a snap could be heard as her bra finally broke.

“I don’t know how this can be fixed, but for now you two need new clothes. I can get us something from a place I know, but should we try making a public statement?” Marvy asked, taking off the lost cause that was her shirt, trying to think of what could be done past getting new clothes for the three of them.

“Well, that’s a start. For now, we need to see if this can be reversed, but I need to put out a public statement tomorrow.” Noire sighed, this was just going to add to the already massive pile of work she had to go through just to keep up with all the work that comes into her office. Not to mention, these new breasts may get in the way significantly.

“I can help with it all, but I don’t know how well I can be your guardian ninja with all this curve.” Marvy gestured to her own body, and how voluptuous she was now. Combat efficiency was extremely down the drain for Marvy and Noire, but Uni may be fine if her boobs don’t get much larger since she only uses a gun! However, something was definitely up, as Uni got on social media.

“Hey, you two, you may want to come look at this. It’s Noire’s page.” Uni said with wide eyes, the two other girls having looked at her page. Hundreds of thousands of new followers were rolling in, and she was trending all over the internet due to what happened, along with the Lastation V Pro.

“No way, no way I am trending right now! I can’t believe it, this is so embarrassing! My boobs got me trending!” Noire hid her face in embarrassment, shaking her head back and forth as her chest heavily swayed back and forth. Marvy looked at another monitor, and saw projections of the Lastation V Pro’s sales.

“Noire, you may want to look at this too. We may be in an extreme shortage, the Lastation V Pro has a few million pre-orders already.” Marvy said, watching as the line graph spiked upwards, the angle steadily reaching closer and closer to ninety degrees.

“Holy [CENSORED], are those live updates?! Well, maybe such huge boobs aren't such a bad thing. Question is, what do I do for future showcases?” Noire asked herself, looking back at the console. Maybe another showcase with it wouldn't be such a bad idea, if larger boobs means larger sales projections and numbers.

“I mean, I wouldn't be against helping out with that sis. Maybe we could display multiplayer capabilities, with some hard to run games?” Uni asked, drooling a bit from just wanting larger boobs again, bouncing her G-Cups up and down clapping her cheeks a few times to feeling the bounciness of her whole body.

“Why am I, the horny game creator, being the most serious about this? We know why that researcher had to go on vacation, may as well do the same and relax for a bit. We need new wardrobes.” Marvy groaned, facepalming and taking a deep sigh. These two felt impossible to work with sometimes, but the shinobi greatly enjoyed the challenge.

“Very well Uni, we can get to planning my next move together. But for now, the three of us need to go clothes shopping with Marvy.” Noire patted Uni's head, now trying to think of how to get outside without their bodies being seen. Would towels even be able to cover something so massive?

“Yay, thanks sis! I won't let you down, you'll see just how great I can do with all this marketing stuff!” Uni said proudly, the three of them making their way to the bathroom in an attempt to cover themselves up with anything, as clothes in the Basilicom would have no chance of covering them.

THE END
