

The tour group followed behind Wonka, their minds still focusing on Amy's plight. Some were concerned, others indifferent and one in particular trying not to touch herself. They were led down a hallway, Wonka speaking to the cameras the entire time, explaining room after room as they passed. Eventually they entered the inventing room, it was full of machines whirring and pinging. No one could tell what was going on here. They were led to a large machine and Wonka stopped in front of it.

“This is one of my favorite inventions, it allows me to take any flavor and condense it into a gum with a powerful flavor.”

“LIKE BLUEBERRY?” Violet couldn't contain her excitement. Wonka simply smiled and hit a few buttons, the machine came to life, steam shooting out of it and a loud grinding noise coming from deep inside. A small piece of blue gum dropped into the container and Wonka pulled it out. Violet raced forward and attempted to take the gum from her. Wonka quickly pulled her hand away.

“Now, now. I can see you are excited, but you can’t have this unfortunately, its still got a few issues to work out.” While this was going on Tina felt her phone vibrate and checked the message, it was from her friends who dared her to come here.

We’ve been watching She looked at the drones circling overhead.

**And? **

**We think that gum looks pretty tasty. Don’t you? ** Tina huffed before answering.

**Fine. ** Tine made her way over to Wonka and snatched the gum from her hand while she was trying to hold back Violet. She quickly popped it in her mouth and began to chew. Wonka turned to see who had taken it and had to hide her smile as she watched Tina chew away.

“That was not a good idea.” Tina rolled her eyes.

“Oh yeah? Why’s that?” Tina didn’t notice the blue dot forming on her nose and quickly spreading across her face. “I mean it tastes fine, I’m not a huge fan of blueberry though.” The blue color spread all across Tinas body as the rest of the group watched on.

“Damnit. I wanted to be blue.” Blue? What was she talking about? Tina finally looked down at her hands and noticed the blue coloration, she began to panic and pulled her shirt up, her blue belly looking back, even her black hair had become a dark blue.

“What the fuck is going on? Why am I blue?”

“I told you the gum was still iffy.”

“Fix this, I can’t stay blue.”

“Trust me in a moment being blue will be the least of your worries.” Tine groaned as she felt a pressure in her stomach, it grew, and she placed her hands on her belly just as it began to swell.

“What the fuck? What’s happening?” Her belly gurgled and swelled against her hands, pushing them out and beginning to stretch the elastic on her shorts.

“Well there’s just a tad bit too much flavor in the gum, and it all has to go somewhere.” Tinas belly was swelling quickly, looking like a pregnancy in fast forward but it didn’t slow down. It grew and grew until it was the size of a beach ball and showed no signs of slowing down. As she looked down at her belly she noticed her breasts were larger, the next thing she knew she could feel her thighs touching. Violet ran over and was poking her body as it swelled.

“How does it feel? Are you tight yet?” Violet was panting as she touched the woman. It wasn’t until Violet laid her hands on Tina’s ass that Tina realized it too was growing, stretching her shorts to their limit. Her skin was becoming sensitive as she swelled, Violets touching was causing her to grow aroused against her will.

As she felt Violet grab a handful of her growing rear end and squeeze she couldn't help but let out a moan as her pussy throbbed.

"Stop, stop touching me." Tina tried to turn but found it difficult to bend her legs, she tried to shoo Violet away and realized her arms were swollen and she couldn't bend them. "Wonka, help me."

"I'm sorry, we can't do much for you. It's a new problem so we don't have a fix for it yet." Tina's body was beginning to round out, her midsection forming together and reaching out to her knees and elbows. Her shirt and bra exploded off her, her tits now flat against her body and her nipples erect and slowly leaking blueberry juice. Her shorts ripped next and the only thing holding on now were her red panties, a purple stain evident between her thighs. Her growth continued until all that stuck out of her growing orb was her hands, feet and her head. She moaned again as her pussy pressed into the ground, she tried to move and cause any amount of friction to make it feel better, but her feet had left the ground, all she could do was sit there and flap her hands uselessly. She was 6 feet wide at this point, teetering on her swollen pussy as the juice continued to fill her.

“How big will she get?” Violet asked, her face completely red.

“Well I don’t know; it depends how much juice was inside it.” Tina swelled further, 7 feet, then 8, 9, 10. Her panties finally burst, having been pulled so tight they were nearly see through. What remained of her extremities were being pulled into divots on her body. She could no longer see the group or Wonka, only her blue skin all around her slowly rising higher and higher along with the occasional drone flying above her. She was feeling tight, the pressure just kept growing. She could feel a rumbling deep inside her and as it grew it became audible and the group took a step back. Her body was trembling as she swelled more and more, stretchmarks appearing faintly on her body.

“Is she going to burst?” Violet sounded as if she nearly came just from asking the question.

“It’s possible. People can only get so big.” Tina could not hear the conversation going on, the only sound she could hear anymore was the sloshing of the juice and the rumbling inside her. She continued to grow, reaching 15 feet then 20 then 25. Her extremities were gone now, she was nothing but a giant blueberry and the only

indication she had been a person was her swollen pussy. Her growth was slowing down as she surpassed 30 feet but the noises were getting louder and louder. The group watched in awe as she grew to 35 feet, then 40. As she peaked past 42 feet her growth stopped completely, she sat there and trembled.

“Is it done?” Steph asked, taking a step forward. She got her answer when Tina’s body rumbled loudly and her skin visibly throbbed. She quickly stepped back and watched. This went on for several more minutes, her body groaning and throbbing as the juice filled her even as her skin had no give left. Eventually it all settled down, the rumbling and trembling from her body was constant but no longer getting worse.

“Now she is done, just in time as well it seems.” Violet quickly ran up and rubbed Tina’s swollen form. Tina couldn’t see or hear anything outside her body, she could only feel the nonstop pressure and hear the constant sloshing of the juice. She felt someone place their hands on her body and rub her slowly, she was so sensitive that it completely overwhelmed her, and she felt pressure building again. Tina jumped back as she felt a shiver run across Tina’s form before a veritable floor of blue juice escaped Tina’s pussy.

“Holy crap, did she just cum?”

“Well you can only imagine how sensitive her body must be at that size.”

“Oh god I wish I could do more than imagine,” Violet whispered, a clear wet spot showing on her pants. Wonka pulled out her tablet as she heard several dings, her viewer count had just skyrocketed. She looked the to large blueberry and got a devilish idea. She hit a few buttons and a few moments later an Oompa Loompa entered the room with a small device.

“What’s that?”

“Let me show you, our big friend here is too big to maneuver so we have to solve that problem.”

“I thought you said you couldn’t fix her?”

“Oh we can’t, but I can do this.” Wonka pointed the device at Tina and pressed a button. Everyone gasped as her body began to shrink. Quickly moving under 40 feet, 30, 20. She grew smaller and smaller until she was sitting around 3 feet wide. Violet walked over and rubbed Tina’s body again. Another, albeit smaller, deluge of juice flooded around her.

“Wow she is still so tight, she might even be tighter.”

“Well that’s because I shrank her, there’s still the same amount of juice. Some of it may have become a little compacted inside her but its easier to move her this way.” The Oompa Loompa rolled Tina away, every other rotation she would release more juice from her pussy from the Loompa’s hands. “How about we move on then? Don’t want to keep the viewers bored.”

“What’s gonna happen to her?” Violet got into Wonka’s face; her eyes wide with excitement.

“Well if you must know I can show you.” Everyone gathered around Wonka who pulled up her tablet and opened the video feed. For a moment they all had a view of a large orb on screen. It was at least 20 feet wide and had a hose going into the top and into the bottom, there was a small tuft of blonde hair visible and a dollar amount over thirty thousand dollars on screen. The view quickly changed to show a 3-foot-wide blueberry being placed onto a large dildo, nearly a foot long. Blue juice gushed out as it was lowered, but once it was the Oompa Loompas stepped back and a dollar amount appeared on screen. It instantly jumped to 20 dollar and a deep buzz could be heard before another flood of juice was released. One more piece of text popped up on screen.

**\$10,000= Another piece of gum.* * Wonka quickly closed the tablet and looked around.

“Lets head out now shall we.”

“Wait can she even handle ano- “Violet was cut off by Wonka placing her finger on her lips.

“We have so much more to see and so little time. Let save question for later.”

With that Wonka turned and left, ignoring a few other attempts at question.
