

One day, Sarah was browsing social media on her laptop in the living room and was noticing more and more posts from a user named Julia. Sarah was not all that amused that someone with that much magical potential can be using it to try and get fame and popularity. Julia would post pics with fans where her breasts were massive in size and completely exposed, posting memes about "how she brings milk to all her boys". Sarah knew that magic like this was made for fun but didn't like that some people were using it to try and become popular.

"Ugh ... .I mean I get it that it's fun, but people need to be careful about it." Sarah said, typing away. "Hmm...maybe I should show them what magic tit powers are like and show them the fun in it."

Looking at all the options online for breasts pumps and inflation pumps, she came across a popular site for breast inflation tools and bought one. She knew that it would come quickly and that her girlfriend was at work for the day and wouldn't be back anytime soon. In the meantime, she moved some stuff around because she wanted to make sure that she didn't break anything when she made her breasts massive. Without any warning her doorbell rang out and Sarah went for the door, opened it and found a large package labeled "Breasts Grower". She looked very excited and brought it in and opened it. The device sat on the table as she went through the manual to see how it worked and all of the functions it has. Knowing all that, she sat it on the ground, took off her shirt which exposed her massive chest size, attached the included hoses and then turned the pump on its slow setting.

The moment it turned on, Sarah soon felt flushed and pleased as her calm face soon turned to lewd ideas and feelings. The pump filled up her chest making them larger, and wider. Sarah grabbed hold of her huge breasts and gave them a good squeeze which triggered her lewd side even more.

"Oh...yeah.... Keep on pumping." Sarah said huffing. "I want to have some good sized tits to show that bitch inflator Juila. Show her what having tits like balloons even means."

Sarah turned up the pump's power and felt her chest start to swell more, squeezing and pressing her chest together making them feel soft and squishy to her hand. She began to sweat more as her libido was in full swing and the temptations to rub them against herself grew more and more. Her chest soon grew double in size once more and was almost touching the ground. Sarah then turned on the stimulator mode on the pump which caused a sucking action on her nipples. Already feeling all hot and bothered she moaned out more feeling like her chest was filling up more and more with milk, growing out her chest even more. Before she even noticed, her breasts had grown

out to her own size and she tried to walk around but kept bumping into the furniture and bookshelves.

“Oh shit,” Sarah exclaimed. “I hope that Emi won't notice that. Hmm....yeah probably not. Now where's my phone at. Gotta show these girls off”

Searching for her phone, Emily came back home and opened the door barely noticing what was happening in the other room. She told Sarah that the shop closed early and headed home with some new magic books that she found for Sarah to try out. Sarah, in the other room, was completely surprised that Emily was home already and tried to play it off.

“But yeah,” Emily said. “So do anything fun today?”

“Uhm....” Sarah said, trying to hold back her pleasure. “You know, just working on some apps. Boring stuff.”

“Ah that's fair,” Emily replied before finding the box that the breast inflation pump came in. “Oh. What's this?”

Sarah looked super nervous that Emily found the box and was scared of what she would say to her since she told Emily that Sarah was working. But Emily did notice that in the box was a remote control for the pump that Sarah forgot to grab. Emily looked at it for a second and turned around to face the living room where Sarah was laying on tube ground with a pump attached to her breasts pumping them up larger and Sarah squeezing them. Soon, Emily had an idea and put on a devilish smile.

“Well then,” Emily said. “Looks like you have been busy. I think now is a perfect time to prank you.”

Sarah looked nervous and wondered what she meant by that. Emily took the remote and pointed it at the pump turning it on to turbo mode causing Sarah to jump up but soon fall onto her chest and watch that she could move as her breasts started to feel more and more soo doubling in size and making Sarah look small in size. Emily laughed and giggled as she pressed buttons at random, causing Sarah to lactate milk and her own breasts began to jiggle like jello.

“Gah!!” Sarah yelled. “Why would you do that to me?”

“Well you always been the one to mess with me and my tits.” Emily looked at her and grabbed hold of Sarah's swollen breasts and gave them a good squeeze.

“mmh...oh..yeah...” Sarah moaned out from the pleasure that gave her.

“So then, let's see how big you can get before you can't take it anymore.” Emily said, laughing and scheming.

Emily took off her tank top letting her own chest bounce a bit as she soon laid on top of her girlfriend's breasts which had soon filled half the room and Sarah was high up on top of them. Emily soon gave Sarah a good squeeze and ran her fingers around Sarah's nipples causing Sarah to moan out again and huff in pleasure. Sarah was all sweaty and hot from the experience and told Emily to not stop and just let her grow more. Emily smiled back and she continued to keep squeezing them, feeling as Sarah's breasts kept on growing and filling up with milk. Being a bit lewdy herself, Emily closed in on Sarah's massive nipples and gave them a good licking to stimulate Sarah more, causing her to swell faster.

Soon enough the pump couldn't handle the pressure and stopped working and the hoses popped out of Sarah's nipples and Emily got a full face-load of Sarah's milk that was being held back. Licking her lips and smiling, biting her lower lip, she decided to excite her girlfriend more and more by just letting her own breasts squished up against the massive mounds that were Sarah's own chest.

"Mmh...." Emily said. "You do know how to get some good milk."

"Uh.....yeah...so good isn't it?" Sarah said, looking down at Emily as she was enjoying herself on Sarah's breasts.

"So then," Emily replied. "Tell me why you did this. Not for me huh?"

Sarah looked a bit shameful. "No. I saw pics of Juila posting herself with her massive tits and I wanted to show that you don't need people to see just how big or flamboyant you need to be."

"Well I think you look lovely and I would definitely want to do this again." Emily said smiling and her mouth covered with milk. "Let's take a pic of this and show that we know what fun is like with tits like ours."

The two of them smiled and Emily took the photo that showed the two of them having fun while Sarah was trying out some new breasts pump that caused her to have some pretty swell breasts.
