

## Fred Violet is The Dragoon

### Dragons & Gods Arc 1: the answer of the journey

Authors notes: Originally this series was going to be a comic book. But, I can't draw! I have been working on this series for over 20 years so A lot of this storyline is set in stone but I am redesigning and punching up some of the work and finally posting this someplace before I figure out some way how to publish it! I'm going to try to get this series out before someone murders me on behalf of the Trump Administration. Thankfully I'm not in Texas or else I will be arrested for just writing this SHIT! Since my brain is terrible I'll but keeping the page and Panel system set up just to keep things straight. {The only thing straight in this system} Please enjoy be snarky and cocky at me and feel free to draw the only real reason why I'm putting this on swelling and not da is because I'm afraid it's da is going to get taken down.

That And the standard warnings this: includes transformations, Body alterations increasement in body sizes and etc

### Page 1:

Panel 1: Fred is getting dressed into her uniform For work while talking on the Her DreamGalaxy 15 The system that is competing currently with the Nintendo P.P.S. [This is in a world where Sega and Nintendo are still continuing the console wars moving to the phone wars creating portable systems that work like cell phones as well as carrying multiple games] Being topless and walking around in her underwear. Her device is sitting on the counter With the device angle to cover her chest.

Fred: "don't worry mom."

Coming from the device: "Well what do you expect me to do but worry about you?"

Panel 2: Picking up her jacket top that is the starter of her uniform she didn't wear the undershirt for a couple of reasons, & also not wearing a bra because it just gets in the way of certain things! Now with the angle showing her mother on the screen well just a picture she's not willing to actually have a full grown moving photo. She looked slightly older than Fred maybe by a few years if you weren't paying attention the photo made it look like it was her sister instead of her mother.

Fred: "I'm only working the night shift, allow me to do some studying in school work while working, it's the Museum what could happen?"

"We, live in a town with one of the few that don't have a hero! And we know there are crazy nut jobs out there."

panel 3: slipping into the pants Which were deep blue matching the top of her uniform jacket she really hates slipping on to pants they were so tight and strong on her hips squeezing areas that she did not like getting squeezed!

Fred: "I'm a Dragon mom, just like you and dad I highly doubt were going to have to deal with medieval knights robbing the Museum."

Mother "You're playing on my superstitious brain again, fine."

Fred "Bye, Oh and you don't stay out too late either."

panel 4: Zipping up the jacket, To the closed position while quickly closing Up the device, And slipping it into one of the two pockets that was on the jacket.

Third panel: Another circle over here gesturing to the guy wearing the lad, And green overcoat, With red and purple splashes and a bit of Kheeto cheese.

Fourth panel: Then moving his pointer, to the skylight on the blueprints. Gesturing to the guy with three long hairs on his head and wearing a yellow T shirt.

page 3:

( James I guess or one of the other criminals. ) "but Zak, but it's a Egyptian artifact, what if it has a Pharaoh's curse on it?"

Zak: "Don't be silly there's no such thing as magic, because there's no such thing as God. We all know that the pyramids were built by aliens it shows on the History Channel!"

Mocking proudly, (be subtle).

page 4: Fred lands with her bright super dark purple wings with rust colored bones sticking out along

the ridges, And then they slowly phase back into her outfit. When the signature abilities of the Dark Dragon is spectral phase, It allows them to go through one layer of armor as long as it's very light armor. As freights slightly jumps when she noses says Professor Ty standing there.

Professor Ty "Don't worry I've seen my fair share of Dragons. Although it's quite rare to see a dark dragon. Name?"

second panel: showing from the waist up, their action shaking hands with each other. Fred using her left hand shaking Prof. Ty's right.

Fred Violet "Fred Violet."

Prof. Ty: "my you have a strong grip. Be careful if the only hand its I have left."

2 bubble: Fred Violet "so how did you lose the other one?"

Prof. Ty "Feeding mine nephews son."

{3 bubble:} Fred Violet "That's a whole new meaning to the word of teething."

Third panel: (inside a thought bubble coming from Fred head)  
a baby eating someone's hand-off!

Fourth panel: snapping Fred out of her daydream.

Prof. Ty: "well let's start setting up security, I got some work to do on the hand."

Fred: " what hand are you talking about?"  
Prof. Ty:"you'll see!"

page 5: Fred takes a seat at the front desk and start pulling out her books.

( Isaac mask large opening around the eyes, with skiing goggles, but no others openings besides those)

Isaac: "I thought you said shoot to wound not to kill?"

Zack"That's when I thought our man on the inside was going to be here."

panel 4: Fred started running up to them, pulling out her billy club.

Both Zack and Isaac quickly fired several shots at Fred, but with the bullets just bounced off!

Zack"What is she sometime alien creature from another world where our atmosphere gives her superpowers?"

panel 5: Zach is hit with the billy club at the side of the head by Fred &knee Isaac in the crotch make it look extremely painful to Isaac, if you wish to use open mouth please let me know, so if I can choose if I have to say generic how high-pitched squeal or swearword.

Isaac"that would explain how she heard our gunshots!"

panel six :Fred quickly walks over to Prof. Ty. Prof. Ty Pointing to the strange Egyptian dagger that the that Zack and Isaac were trying to take.

Fred"how bad it's it?"  
Prof. Ty"give me the hand."

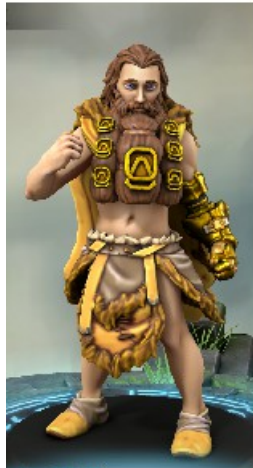

page 6:

longshot panel: Fred quickly picks it up from the ground and hands it to Prof. Ty.

Second panel:Prof. Ty instantly shoving(close up of )left-hand stump,into the back of the dagger like glove!

Third panel: Prof. Ty begins to change Tyr

gods Tyr"I am the mighty Asgardians Tyr."

page 7:panel 1:Fred was in shock and all, standing in front of the God as all this and the bullet hit her in the back!

Panel two:Her dragon wings popping out of her back and wrapping around her entire body as her body grows who's doubling in height from her original seven feet tall to now four feet tall her horns bumping into the chandelier dangling in the Egyptian room.

Panel three:Close up onto her face with an angry roar!

Page 8:Fred runs up and grabs Zack with her claws holding him up to the wall, Zack unconscious at the

wall.

Fred "It's not very nice to shoot someone in the back!"

second panel:Fred let's go of Zach dropping the unconscious body to the ground.

Tyr" Excellent work, For unskilled mage, Dragon. That said you might want to transform back to looking more human, It's okay if I take over taking the credit for knocking these guys out I don't think you want people knowing that a dragon is here. especially, one that is a heavily heavily suspicious at times."

panel 3:Fred turns around and realize she just transformed into her Dragon form in front of security cameras!(looking worried/flustered) radio dropping of Zach's pocket.

Radio said"boss what's going on, the security cameras went down while ago, what's going on! Boss! Isaac! James! I think the boss and Isaac are dead the plans gone bad let's get out of here!" As the radio went dead.

Panel 4:close up on Tyr.

Tyr replied"Not to worry my transformation overruled your mortal technology. Strange all these advancements and you still haven't learned how the fight properly. Does anyone follow the rules anymore!"

Panel 5:Fred turns around and slowly starts changing back with her torn uniform becoming just the skirt.

Fred says"Sorry, but they didn't create clothing that changes back with you. So, Tyr what God are you?" Looking slightly confused.

Tyr laughed as he said"Not to worry modesty was not one of the roles, then again wearing armor wasn't either. I am the ruling God, I host rules of combat the teacher of Asgardians! The warrior's code of honor, master of all combat rules of engagement to the final battle, where one may stand and one may fall. I am the GOD of the rules of war!" 'Thank you modern warfare and every other game, for keeping this god strong.'

Page 9:Fred continues being confuse. Tyr Placing his golden hand upon his head sighing in relief no one remembers the rule keepers.

Fred:"No the God of war is Odin."

Tyr replies"yes Odin King of all the gods, is also known as the war God. But I'm the God who controls the rules, of combat."

Fred responds"okay so you're the referee. But I thought war had no rules?"

panel two:Tyr Shaking his head.

Tyr responds"No it has rules, it's just everyone seems to ignore them, and may never learn why these rules are ported. Then again you mortals seem to create viruses and not realizing that the reason why it's against the rules is because viruses do not distinguish you nor thy enemy. It's like wielding a double-edged sword sooner or later you're going to stab yourself in the chest while killing your friend."

Fred says "OK, so why did you go into hiding?"

page 10: Overview page: pay attention to the dialogue and draw several pictures: first panel setting of a desert with Tyr fighting Surtur, dodging sword swipes.

Tyr "I was fighting Surtur in the land of the rival gods, for the evil flames that he wields could destroy the world,

second panel: a Golden dagger in the chest of a demon, in the close-up.

panel three: Tyr stomp pulling out from the sword hilt, with lines of him running away!

Tyr "Knowing I was close to Hel's domain I fled. Leaving my hand within the corpse of a demon, as Anubis banished the Surtur to his domain.

Panel four: Tyr standing outside of one of the pyramid.

Tyr "When I returned the claim is my hand, I found it missing. And as you can see I followed it to this location. It's funny you mortals, often placing objects in the wrong locations just because you find them in different places than you would normally suspect."

page 11: Fred walks off to get a new change of clothes.

Fred said "OK, well I'm retrieve a backup uniform. I'm pretty sure a powerful and mighty Godlike yourself and guard some artifacts.

page 12: changes back into his mortal disguise as professor Ty. And quickly proceeds to make a fake

version of the dagger, and quickly tying up the unconscious prisoners, and examining their injuries .

Ty said "That's new for castration in the books?"

panel two: Fred walks back in with a brand-new uniform, shirts a little tight but a lot more baggy in the pants.

Fred says "Oh yeah, I guess we should call the police to pick them... Oh geez what are they going to think about the fact that I just, beat crap out of them."

Prof. Ty says "Not to worry, when I picked up their guns, I refueled their ammo clips with the very bullet shells scattered around this building, except for two."

panel three: Prof. Ty Adjusting his disguise to make it look like Fred put his arm in a sling.

Ty "Call the police and tell them that I was injured, during the scuffle against these hogans and you tended to my injuries, when you found these hogans already unconscious and tied up. The security tapes will show nothing more than just that they shot me. So it should be no problems at all."

panel four: Fred Notting in reply.

Page 13:

police car & 2 ambulances arrive at the building. detectives Kitrich and Coldwell step out of the blue sedan. two orderlies carry professor Ty with Fred being right behind them.

Fred replies "Jason Kitrich, what brings you here?" Laughing awkwardly.

Detective Kitrich " My job, and you Fred, what trouble have you gotten yourself into this time."

Fred said "I'll explain the whole working at the college/Museum later."

Detective Coldwell says "well, we still need your statement. As well as your phone number."

Fred says "why Jason has my number."

Coldwell replies "so that I can call you off duty."

Detective Kitrich "Larry, she plays for a different team."

Coldwell "I don't care what sport she plays, what team she roots for, as long as she's not Bears fan where okay."

Fred said "No but honestly you're not my type."

Coldwell says "Really what is your type?"

Kitrich "More like the chief would be in her playing field."

panel three: Coldwell looking confused at Kitrich from previous comment.

Coldwell "ha ha very funny boss, but the chief is a woman."

Fred says "yes I refer more things to play around with. As in the ladies."

Kitrich "I'll take her statement you just look over the crime scene. Okay Coldwell."

panel 4: Coldwell looks disappointed & walks into the building.

Coldwell says "Sure boss. Why all the good ones are taken or gay."

Page 14: Detective Kitrich removing his hat, revealing his elf ears (pointing away from his head.)

Detective Kitrich "okay what's the true story and what's the cover story?"

Fred said "The cover story the professor did all by himself, after receiving to gunshots wounds in the chest. The real story the professor is actually a God and he was immortal so he didn't get hurt by any the bullets but then he just decided me to look like he was injured."

Detective Kitrich "dammit, I can't tell of your lying or not. But that sounds ridiculous. Just try to keep your nose out trouble, your big purple one."

second panel: Detective Kitrich placing back on his hat. Just Coldwell comes over.

Coldwell says "Boss you got to see this!"

panel 3: Kitrich follows Coldwell to the scene of the crime, and points to the wording on the dagger.

Coldwell "It's written in some type of code, I think they planted it."

Kitrich "First it's in Egyptian, second that's the actual artifact that they were trying to steal. It says those with ill intent shall be given visions of God's. Strange but okay. I don't think we need the bag for evidence."

panel 4: Fred takes her seat back in from the front desk, and opens her book to study up on the Asgardians gods.

Fred said "yeah until Thor came along."

Ty" yes, and I taught him all my best moves. Why I am a little miffed at him. I am still proud of my students. Now you need to know how to fight."

page 2: still walking in the hallway.

Fred said "I know how the fight, I took the same seminars everyone else."

Ty" Right, if they weren't normal mortals you would have been dead within 3 seconds. And even if they were packing actually good weapons, like a useful sword you would be down within two."

panel 2: they come to the fork in the hallway.

Fred said "Well the Seminar did teach us how to fight man, so I think, I did very well."

Ty" yes the seminar of teaching women how to beat up man, when the man has more things on his mind about taking on the accosting pretty lady then, realizing that he's going to be

completely killed a horribly brutal matter. the difference between warriors and rapists. Not that I'm saying that rapists are good. On the contrary it's very much against rules. Although you mortals have softened. For back in my day, those who committed that vile crime would have their skin ripped upon their bodies, as they were still breathing."

small panel close-up :Fred is a little shocked.

Ty" When you're done with your classes meet me in the gym. Excuse me I have to purchase some of your mortal toy weapons? I got to say at least you mortals of learn how the teacher children how to fight much sooner, and more effectively."

Fred says "we're in the middle of the school, and long sure you can explain a Dragon to someone, I don't particularly like the idea of me flashing."

Ty: "that's why I gave you the bracelets, they're enchanted they'll give you Dragoon armor, for your Dragoon form."

Fred said"Why, would one God-given other God a gift?"

Tyr:" politics. Now since Ra had nasty habit of joining with mortals and other gods, causing them disconsolately lose the prostate eye. Often used in construction of the godly pyramid.

Trust me, I think they were building those things just compensate for something. I mean you don't see us building huge gigantic symbols, like the Greeks and the Aztecs and the Egyptians, us Asgardians! We don't you do showed gigantic huge buildings to show how powerful we are!"

panel 2: Fred opening the window.

Fred said "so we need to retrieve this artifact for some odd reason."

Tyr "well apparently one of your mortal friends is, using the artifact excessively, now normally I would not worry about this being a problem considering that constant use of something like that would cause you to die of old age, but the now using the record feature, which means paradoxes."

panel three: Fred getting ready to jump out the window.

Fred said "which is very bad."

Flying overhead is Fred with her armor of course, and Tyr on a flying Pegasus (dark brown, with a wily black mane) (difference between the Greek Pegasus and North mythology Pegasus. Greek Pegasus are primarily white, and look very much like stallions. North's are Clydesdales! Suggestion watch a lot Budweiser commercials from the Super Bowl]

Issue number four dragons & gods

[Did not like the fight sequence that I wrote a long time ago so I'm just going to rewrite the whole fight here with a new set of mechanics!]

[Don't worry I'll be doing descriptions]

Page 1: Fred & Tyr land in front of military soldiers, with the soldiers screaming in terror, and the ninjas just continue running off towards the military weapons.

Tyr: "No need to panic mortals."

the soldier's hands and started aiming.

Page 2: A series of panels showing Fred dodging the gunfire you're running behind several tanks Tyr standing in the middle of it with his hand transforming in the background to a swirling vortex machine.

[The dialog throughout the panels] Tyr: "I need you to keep him busy, and do some killing there's too many paradox levels here before the universe gets a little bit grumpy about it, I don't want the time gods involved."

Fred: "In other words you're saying don't hold back but I'm kind of worried about you know killing the real one?"

Page 3: Meanwhile at the bank: {Generic bank teller office area}

Jason, Standing next to a police officer and clutching over the spot where he's bleeding profusely. "Halvan, Stay with me you're gonna make it you're only three days away from retirement." Halvan "I knew, ...I shouldn't ...have taken,,, that leave of absence option. If they make me a true Robocop.. make sure they.. don't make me ...live of a baby food." Small bubble next to Jason showing the fear anxiety. " Don't die on me, you've got."

Panel 2: Larry demonstrating his pistol work while kicking over a mahogany desk this to block some of the gunfire. "Something's weird about this naughty list, When did Mikey Rhodes get multiplication powers."

Page 8: at the bank “What just happened I was seeing the pearly gates and then fire and brimstone and then I'm alive again, wait am I going to go the hell?” Halvan Says when Jason is standing over him.

Panel 2: Larry notices several of the subjects having now giant holes in their chests but still moving like they're fighting off a poison. “Okay is there a trick to hitting a lot of them at once because I think they take a single piece of damage and it spreads out to all of them, I wonder what happens if they get all hit with the same amount of damage?”

Panel 3: “I only have a fireshot do you have something that can generate electricity?” Remarks Jason as he flips through his revolver.

Page 9: Fred quickly noticed that Mikey was now putting on the body armor and covering his head in a helmet. As all the duplicates were wearing the same body armor all of a sudden.

Panel 2: Showing the bank layout a little bit in the background now all the guys are wearing the police body armor that's designed to withstand basic gunfire. With Larry gesturing to his gun. “All right you're using one of the newfangled Taser guns.” Larry: “yes Santa.”

Page 14: Fred getting ready to congratulate her boss while slightly looking at her hand noticing that it's not as heavily injured as she was expecting. “I didn't do anything they've faded on their own which means some one killed the original before this happened.” In Tyr dialog in the face that looks slightly worried.

Page 1:[first panel square on top] Fred surrounded by reporters asking her all kinds of questions.

Reporter”are you aware your encouraging dead religious to exist in reality they are the sole tenant of evil!”

Prof. Ty"No big deal, unlike most of us gods, I actually learned the value of money very early on. Now are you serious about being this towns defender?"[Side bubble: As the god of the rules of war there's a variety of unique rules that people forget exist like money. And how they're extremely important in games]

Fred"you mean city, well , Homilles isn't coming back from the dead, to protect the city that's named after him. So I guess that does leave the Dragoon to stop the these artifacts, from wreaking damage and death."

Prof. Ty"That's what I expect, someone who could not stand by. Well you better have fun tonight."

Panel three: Fred walking up the stairs, leading Prof. Ty's sitting on them.

Emily”me too, and you were a true Dragoon.”

panel two: Fred going into a low whisper into Emily's ear.

Emily”WHAT! I wasn't talking about that, but now I won't have to worry about those awkward moments, like a certain reporter used to doing comic books.”

Panel three: Fred Blessing and talking.

Fred”oh, well I also have a doctor appointment, about my 'expert job'.”

Emily”so that's the real reason why, we didn't spend the night together! And here I thought you were just being nice when I was drunk.”

Fred”no I was being nice, after all evening human form I still have over 20 rids then the average person.”

Panel 4: Emily reacting with laughter.

Page 20:Fred and Emily sitting next to each other in class.

Off panel voice( Prof.ty):”class, here's the assignment for you. All you should know every great hero, goes to Valhalla, dying in battle and fighting with glory and honor. Your assignment is to do a story on one of these heroes, a hero you believe would've gone to Valhalla ignoring basic religion issues, now fairy-tales are allowed, but not TV show or movies. So I don't want you having a report like, Puffy died on several occasions, like facing the master, then there was that time she jumped off the building to save the world. In our words if you can read a book or newspaper for you will be a passing grade, if you actually had to watch 24 episodes of something, you fail!”

Panel two: Prof. Ty holding a booklet.

Prof. Ty:” now this essay can be as long as possible. They has to be at least over 20 pages of nonstop tax and will be delivered, the ones I like will be done this role reports, in front of the class in two weeks, you have one week to complete your reports and then I'll look over them. Good luck you will need it!”

page 21: everyone getting up and leaving, with the exception of Fred as Prof. Ty grabs her by the shoulder.

Fred”what's the matter?”

Prof. Ty”I recommend you study and learn from certain heroes, so here's a list of recommended reading material. Pick one that you think will suit you well.”

Fred”are you trying to teach me a lesson while teaching the rest the class as well?”

Prof. Ty”just because I'm really the God of rules of war doesn't mean I can't flex the rules just a little to teach someone,while teaching a group at the whole.”

panel two:Fred leaving the room and looking at the list,With Emily close behind.

Emily”So Fred, what the god Want?”

Fred “nothing much just give me a recommendation list.”

Panel three: Fred looking shock, and Emily snickering.

Fred”how did you know he a God?”

Page 22: Emily smiling Fred still holding list, as they walked into the open.

Emily:" well, I'm part leprechaun, and doesn't hurt, that Prof. Ty looks awfully like Tyr in the book, not to mention he said himself."

Fred"you heard that!"

page 23:Fred shrugging & Emily still smiling.

Fred"well I guess I should explain everything, do you have free time? I can explain on the way to the doctors."

Emily"no problem, the next classes until two."

page 24: Sean sitting on Cross leg style Fred's bed, Fred sharpening her claws.

Voice over bubble in purple boxes and gold lettering:"There was a mysterious figure who introduced himself as Sean Stacy Helfen. After I shouted."

Fred"who in the name of Agfrit! Are you?"

Sean"Sean Stacy Helfen, and congratulations on being the superhero, although you missed your first chance of a robbery in progress stopping. So, I really hope you were not out on patrol."

Okay for the final chapter I will be doing this in non comic script because it's hurting my head.

Issue 6: [That said I'm still keeping it as issues because I'm still covering bring my backlog]

Fred's red dragon talons were still in the man's chest placing him up towards the wall exhaling with a big fierce wrath "How did you..." The man was unconscious she quickly pulled back and was slightly worried normally she could probably take care of some situations but you know dead body would be kind of an issue especially on campus. "Sweet Dragons breath that hurts."

He said getting back up to his feet she was still towering over him but he was nonchalant. "Dear Elementary, My dear Fred or should I call you miss Violet?"

"Elementary like that Harlock homes? Or Sherlock?" Being slightly confused and also wondering how elementary was going to be involving on how he figured this out. Still priming herself to get ready for a fight or two or three.

"Yes, well figuring out how many dark dragons are located in this area,Then quickly separating your height and build and also the fact that, I have access to all the security cameras within a 12 mile radius of that military base although you being on the front page is the news didn't hurt either and the call from the mayor." He said as all of a sudden popping up in his hands was a mug that said world's greatest detective 1828-1830 And the mug did look a kind of bit old. "And Betty said it was a stupid idea the charm on my coffee mug. Especially when I could have gotten with the older during more up to date ones but vintage is such a tasting good."

"Right, So you just do I was through racial profiling." Fred wondering if she could play off a secret into these stuff. "not exactly more or less of understanding the fact Minority is that Dragons are extremely rare in their own variety of functions she's in colors preachers and even though this is a highly populated area of dragons. Okay maybe in short terms yes but long terms no." He responded with a ridiculous diatribe.

As he was now sitting on a chair wait where did the chair come? “Look the mayor is already asking if you have a license and I kind of fibbed. And said yes but she wasn't scheduled to be your hero until next Tuesday say she got a little long munctures or something like that or a big case I-I will have to refemoralize my fibbing later.” As the coffee mug disappeared and then was replaced with a different coffee mug same words but in different year now now was in the 90s.

“Wait, I have to have a license to do this thing, I thought superheroes just do things randomly?” She replied changing back to her human form and pulling up a chair she realized if he was as dangerous as he would be expected to be right now she would have to be really going to get in trouble.

“Look this is just a mere formality we have licenses this is for reasons that involve me spending an entire hour in front of a guy complaining about the Red Scare and I killed him.” Fred remembers reading about the death of Jim McCarthy of the McCarthy era, Who was step to death by the representative and head of S.S.H.! That was 24 hours that she recalled. “You look pretty young for someone that old, I thought you were human? are you actually elves even then you look kind of young for that.” Fred responded slightly nervous.

“Temporal shenanigans and relationships make you extremely long lived in look youthful.” Was his reply as the mug disappeared and was replaced with a series of paperwork. “Now, I'm just going to give you these forms and then you visit this location on the forms after you fill them out and I'll give you your license or when my lower rankers will probably one of the lower rankers I don't normally do this myself.” He said handing her over the pieces of paper. “And what if I refuse?” “Well you're suffering from at least three broken ribs oops so that's going to be what \$450 for your regular adoptive visit possibly including your X Rays is the top secret X ray cost which comes into effect of being an extra 300 or we could just cover that.” Fred grumbled as she took the papers.

“Good and feel free to fill out the paperwork as much as you can and then we'll get the final testament on your rating for your license and then we'll do some ratings later for renewals. You have two days to fill out the paperwork or else we will not be able to cover for your doctor's visit sit you can visit your regular doctor or not it's up to you on that front we do have a medical facility though.” He responded well placing the chair back with a wave of his hand putting his hand to the phone line and then he disappeared.

Page three: [Hoefully that can all fit in three pages]

The police investigating the crime scene, at the shipping docks, Coldwell is taking notes, several of the security guards. While Kitrich is surveying the actual crime scene. Coldwell had taken out his bag showing off a couple of Different cards. To one of the security guards shaking his head on a couple of them, then pointing to one of the lower tier ones ones. And then gesturing to a couple of sketches which is also provided. “Okay this definitely looks like it's the effects of the ghostly fatals and Suicide was here that's not good.” Remarked Larry as he closed up his book bag containing the boxes of cards.

“Yeah, I've already asked for the manifest of what was in the cargo list.” Remarked Jason almost about to take off his hat and then remembered he's out with Mortals. “Yeah and just because you're used to checking the lists and maybe even twice doesn't mean you're going to deal with it, I know stop making Santa jokes.” Remarked Larry.

“Yeah and the Rex is unleashed their Senti team that's why it's called right Sentai.” Jason looked at Larry

when he was saying that and then noticed Larry's face trying desperately not to say something like you should be saying that after all you've given out how many of these toys on Christmas Day. "I have really really really really hope nothing else could make this day worse." Another police officer ran up with the mic.

"Coldwell, Kitrich Captain sheriff's on the phone." And the day just got worse.  
{That should take up two pages}

Emily and Fred are still in the car just driving into the parking lot, of the hospital. Thankfully not having classes due to 1 Emily doesn't have anything scheduled that day and two Fred is kind of flaking on at least one of her classes that she takes that she doesn't really need to but just to build up to credits.

"So, you're still registered as a college student?" Emily remarked looking a little bit at the paperwork parking the car. Fred gave us slight nod she was not going to take advantage of the idea of already just giving her a job as a background job not really sure if there might be some credential problems coming up later. " So, you're cool with letting me know all this?"

"Well I can be a little rebellious can I it's not like the scariest man in the world is in charge of my life and career he just so happens to be in charge of the company that's watching my entire life and career, I highly doubt he would ever take responsibilities of these or anything like that." She said being thankful that Dragons can't actually sweat, Besides he wouldn't have suggested going to her own doctor if he was super bent on this whole secrecy stuff.

Has Fred got to see her doctor Dr.Uralia [Short redheaded hair fox ears currently curved downward with a very fashionably large red belt.] His boyish face with his gleaming red eyes he's with the only marker having a big huge red scar across one side of his face just below the eye line.

" Well according to the X rays you do not have broken ribs. But they do show signs of healing incredibly fast even for you so I'm going to have to ask you what were you wearing when you received those injuries, I know it was golden but, I have not judged that armor in a long time. Oh, your girlfriend is knowledgeable about you?" Fred gave a slight nod and also wondering is everybody just going to figure out that she was superheroine today and Oh my gosh her mom's going to kill her.

"Don't worry about it I'm a fairy well technically a leprechaun but you know fairy tribe." As the dr revealed he was a 4 Tailed kitsune AK fox demon which means four tails pretty high ranking but not the strongest. With his ears perked up with a hose sigh of relief. "Look one of the camera guys kind of did do a close up on that rear of yours and I recognize that tail anywhere." Gesturing to the scar on the side of his face.

"Well a Tyr gave me the armor you know that God that was standing next to me." She said to the Fox demon well showing off the bracelets a little bit. "Okay well the bruising will disappear probably on the bones within a week or two try not to get too many bruises. And that new insurance card is really interesting I'll be sending the build there then." She gave a slight nod as the two were let out with a bit of a siren reliefs.

[Also two pages]

Meanwhile at the police department: Pacifically with the angriest Roundest dark skin with blonde streaking hair with a slight shades of gray intermix with it as in like oh be as easy as years have not been kind of yelling at the two. "First the fiasco at the bank, And don't get me started on that

robbery too and now you two have been requested to be the freaking officers search for the new hero!" Turning to look at a picture of a slightly rotund and more masculine version of herself in the mirror oh wait no that was actually a picture of her twin brother Willie 'Twist' Sheriff. His membership was the only reason why the sumos and the cops don't get into Battles, Or it would have been if he hasn't been passed away for several years.

Larry. "Look if it's just because Jason likes to use incinerator rounds and whatever the heck he has carrying halftime in his utility of ammo belt. I'm the one who electrocuted the guy with the Taser sir. Rounds is that art standard issue, maybe you should only yell at me. Wait what do you mean by requested by the superhero?" Just as the blinds were closed by Jason.

As Jason takes off his hat and reveres his ears and Olivia Sheriff Ruffles her hair to reveal for shiny horns. "You are Trailies!" Larry responds caption box on the side galaxy trails loses a popular TV show science fiction that was created during the 60s, Hi fans are often called Trailies. As one of the tag lines was what if the organ trail was in space.

[One page 1: Also this was originally in issue 7 but I felt like Putting in a transition here would be a good option]

Both Fred and Emily walk into a comic book store? And walked to the comic book guys counter well actually it's a comic book girl her hair is pink with streaks of blue highlights dark mascara and a piercing in her nose. "Looking for any particular issues." Says the countergirl flipping from her magazine and looking at the two. "Issue number one for the dragoon?" Fred replies in a slightly bizarre toned. The countergirl takes a quick look. "sidekick or generic love interest." Emily was about to retort why can't it be both or she is no sidekick. "Currently Love not generic." Counter girl looks back and forth closes her book places her hand underneath the counter.

[I can't help but stress the page transition system]

"Welcome to S.S.H, I believe you are a new superhero for higher. Cash in your paperwork over there you're pleasing thank you and Oh yeah you're probably wondering when did we get in front of a guy Teleport circles are located in every shop and managed by our security counters. And Ken will give you the tour to your evaluation section." Says the man with dark brown hair standing in front of the counter and then his twin brother showed up holding a pamphlet sign and directing them after Fred dropped the paperwork into the bin.

"Hi I am Ken 245678, And I will be your tour guide today if you're wondering what in the heck is that number that's how many lines I am from the original we're all clones. We're all given names in order to make it less awkward and dark when we eventually die. We used to wear red uniforms as well." He said with the extremely chipper attitude that made them very nervous.

As Ken Look down at the tablet and walked over a torch an elevator and press the button. "As a mystic norm. You are given a basic comeback challenge and a basic rating challenge before you can get your full license. Also I see you have currently still listed yourself underneath the student package. Going for a security position at the moment good, we don't need to check to make sure you don't accidentally copy your own thesis in the future." As the three stepped into the elevator shaft.

"Ma'am you're not on the document list uh what are you doing here." Finally noticing Emily in the process. She knows she's a bit of a short queen but this is ridiculous. "Moral support and also the

ride.” As the panel opened up to reveal a group of laboratory guys running around with a cyborg or testing out a variety of legs over and over again detaching them from different locations some from the torso some from the notches into the torso where it links into the hips etc. “Right, Boss!” As Sean just showed up a mill front of everybody without any prompt to knowledge.

“Hello oh wow you're always turning off with a team sidekick ok nice bubble girl, Oh wait no you're just dating ok I'm fine with that that actually makes things so much easier, I prefer when superheroes just have their relationship out in the open instead of having to deal with the annoyance of the secret identity clause.” He said nonchalantly placing down the coffee mug that he was drinking from onto a counter and then immediately get taken away this time on the coffee mug it said pumpkin spice is always nice.

As they walked down the hallway now being led by the head of the organization and Ken just disappearing into the background like he was expected to do. “Code team up magnetic storm required magnetic storm required. Team upload up and it activated magnetic storm team sent to take care of operation gamma doom, I repeat gamma doom.” Stated from the intercom also the voice was familiarly listed from the person that they were just talking with.

“Okay we're going to send you up with a combat battle against the previous hero mockup robot the Homilles plays bot is not at the same strength rating as Homilles himself but close enough that we can get away with it they should see how well you do with the base ratio of the higher goons of your section which is the Sumos.” Sean as he opened up the door and pushed through to a mechanically steel bot version of the legendary superhero which basically looked like Hercules from the Marvel Comics collection only may have steel.

“Do you also clone yourself or is it just the kens?” Asked Emily. “Technically, No but in practice it would say yes electrostatication. As Fred proceeds to do her amification system. {If you want to insert your own obligatory anime girl transformation sequence.} “Interesting she's not going dragon.” He remarked says we see finally her armor form when she's in humanoid status still just the standard 7 feet which makes the robot that she's facing off against actually tower her as the robot is a fifteenner. But still built to be a truck literally it's got half of the size of a truck.

Starting off with a basic Hulk Slam into the ground with Fred doing a quick slip dodge as she focuses her transformations to only activate her big huge dragon Claws which make her hands look a little bit bigger and beefier but not by much maybe increasing it by two inches after all a dark dragon is still one of the more lanky dragons. Going for some key stabs into the rib cage and to the side of the ribs to be exact. Slipping underneath the mech as it slammed for another brutal punch her tail slipping out from the metallic skirt and going for a quick slice he surrounded the legs.

“OK that shows us how well you can deal with one let's see how well you can deal with 3, I know those spikes can do some parallelization at times so I'm just going to assume the bots down for the count at least when it comes to the legs also yes going for non lethal is a plus on your score so smart move.” As three more big bulks came jumping down this time the headgear was not finished and obviously having just blank faces. “Now you tell me.” Remarked Fred as she now went back to being her full 14 feet tall which means she was still slightly underneath the height of these guys but by an inch.

Exploding Fists Punching technique was unleashed by the Bots, Fred proceeded to first off do a rising dragon on one knocking off the head that was going to take some points off probably, As the

other bot went for a quick grab of her tail took a loud crushing noise, as she yelped in pain[Like a cat having its tail crushed and from a rocking chair.] For the bot could slammer towards the wall she unleashed a fireball within that scream since her flames did react to the flow gravity one of the factors of her dark dragon section the fireball landed across the shoulder just as she was slammed into the wall right next to the display viewing window.

As the third bot proceeded to go for a shoulder tackle as the other two were slowly recovering the one that locks its head preceded to try the fundle to grab it 'okay weird that that was still programmed in there?' marked Emily in her head. As Fred was slowly doing the bit of a shrinking noise as she shifted back from being dragon to being humanoid still wearing her golden armor before slinking back underneath to barely avoid getting shoulder slammed into the wall even further that hurt but she was strangely feeling less pain than she was expecting like the armor actually soothed her injuries before it was really dominant or it could be the adrenaline. Growing forward to do a swift of tail slash across the legs and knocking out one of the bots.

With a dark purple and golden blur slicing up into the chest of the other mech and then proceeding to leap backwards onto one grabbing its arms as her eyes started to flex... "That's enough." He responded as her eyes started to shrink back down as well As well as most of her head as her eyes guard slowly start the shift to becoming her mouth guard for a split second. As the bots turned back.

"Interesting movements I would say we'll give you a license of a rating of A hiD-C Ranking hero at the moment we might have to bum your ranking Up later, depending on your future fights. Also refrain from going full kaiju, I know you probably haven't had practice of that. Not to mention also our building is not clear for it." As Fred sumped down to the ground the arms were completely ripped off of the other robot that she was grabbing and gave a slight noddish her head felt a little woozy.

"And yes it was a combination of adrenaline and your armor hm, I see oh so you got this straight from the gods that's going to make it make obvious sense now hmm," Replied the mastermind fred was astonished it was like he knew exactly what she was thinking wait a minute. "Can you read minds?" "Don't be silly, I got the world's greatest detective div mugs remember." 'Yeah that's right he must have just quickly read some of the details in the notes during the fight that had to be it.' She was thinking to herself as they were led straight towards the next set of tests.
