Lisa is what you call a slime maniac she joined a particular forum undergoing the name Moan Lisa! Where they talk about slime recipes things that they would do at slime et cetera some of their favorite slime monsters you got it. She also happened to have as a couple of friends that live close by that were also on the same forum, So it wasn't that hard to wrangle Up which ones were who? She found a rather interestingly unique slime recipe that she could buy pretty darn effectively/grow. Going to her local flower shop which also have a variety of other seeds she went and bought these things known as stink berries, Which grounded up into a variety of processes to make into a decent oil that was plant based to fill in for one of the ingredients of making slime. She really didn't like the idea of buying the Magic Liquid sure it was classified as non toxic but by how much meanwhile she knows the basic ingredients in most of the average glues.

“Okay let's see this tub should work just fine.” Remarked Lisa as she looked over the giant wash tub about 4 feet deep, And 16 feet wide completely circular. Perfect for her and her friends to party up in. She finished making about six buckets worth of the 'Magic Liquid' And bought three jugs of the giant glow and dark glue dark green. The buckets were about 8 and the jugs were about 6 so there wasn't that much of a difference after placing down the giant tub into a position where she could easily have her friends climb into it. She put on the forum a couple of key clues for her and her friends to understand what was going on for a little's private party but being kept in its usual open secret style. In it everybody was supposed to bring their favorite glue part for their recipe as well as some of their own unique methods of dying and possible flavorizing. She stated she'll cover for the missing ingredient to make the slime actually slimy.

OnyxThum=Bryton Nielsen,BlazerEgréli=Sabrina Melton,AcidAsmaisy=Wendy Terrell & ShadeSauce=Maya Berry. Easily translated their codes,And drove to their favorite craft stores first off to pick up jugs of glue and getting ready for the party on Friday night. As they all ride for the party the giant wash tub filled with the liquid now not reeking of the stink berries unique smell having Them airing out overnight “who, That's the only downside about that recipe it stinks to high heaven for a couple of days. Now I can see why they say it smells like that action figure from Masters of the universe.” Lisa commented as she was wearing her bathing suit a string bikini showing off her DD Although she had to admit she did have a bit of a belly,Giving it a poke. The first one was Onyxthum,He was showing off his T shirt and was wearing also his swimming trunks which were deep purple with bright neon green flames on them his T shirt said something quite unique. 'H.R.T= Hands,Right on TITs!' Bringing two large milk jugs filled with pink liquid. “Where do I drop these and looking good?” Lisa turning showing off Dick, That wasn't concealed too well behind her black thong Bikini. “Over there with the green jugs, And it's nice to see your support sign again.”

“No problems, although if we're allowed to show our stuff? maybe we should just be nude!”As Brighton was one of her closest friends, knew her back in her old life. “We'll see how the others feel after all I think this will be the first time, I've seen Maya and Sabrina in person?” “You mean blaze uh she'll be fine now saucy, I think she might get a little bit more sauce before she goes full hair and fisted.” Bryton likes to refer to a lot of people by their code names. “And looks like Acsm Is here?”Referring to Wendy, She was bringing some glow and dark green as well 1 jug so she placed it on the side as well only it was a lot brighter than usual like it was already starting to glow before, It hit

dark.

Wendy was also a pretty busty girl{E} And showing off her thunder thighs wearing a one piece. “So when are we doing the mixing and how are we going to do it with such a big tub?” Remarked wendy this was the first time she spotted Brighton Oh that's a dude,Also is that a.. “COCK AND FAT TOO!” “Geez acid that's so loud I think the neighbors heard it and I think they're in the graveyard?”Shaking his ears as he was checking to see if he could still hear right. “Yes is that a problem?” “No not at all.” Looking a bit nervous and slightly jealous at the same time but the surgery detach one was always threatening to get rid of the thing that she also has that she wants to keep. “Once everyone gets here we'll swim in it and that will start stirring. Maya & Sabrina showed up in the same car each carrying two jugs with themselves. Who almost dropped theirs when they spotted Lisa this was the first time she got a good look at them sabrina was a platinum blonde with some nice DD,And Maya had a modest C{Just a few inches away from D} cup,With her brown hair both their jugs were a deep deep blue,And both of them were also wearing one pieces as well.

“Okay then so how are we going to be stirring all this?” Sabrina remarked trying not to stare but thoughts were swimming in her head about doing things. “Well we were going to go swimming with it uh grab your jugs and help pour it all in here first off and then we'll just climb in and start swimming.” Remarked Lisa climbing down the ladder. 4inLong with a three inch thick,And two sets of golf balls. Walking over towards the stacks And then took off the lid off of one of them just as she started climbing Up the ladder. The others slowly follow suit Brighton being the one who was doing the heavier lifting as they were doing a conga line torch carrying the stuff up to be poured in first off turning into a deep deep green and the mixture of the blue and red were slowly turning it from a green to a surprising purple they were expecting some type of brownish color but it started glowing back into a radioactive green for a little bit just as the sky stopped being so sunny and being a dark spooky cloudy night.

“Lisa, why wear the thong we all can see it! Let it swing free!” Brighton shouted the rest of the girls agreed rooting with their arms, she nodded Put her hands on her hips and unveiled the black leather thong of her swimsuit. Before climbing into the pool, Sabrina was next,Followed by Maya then Wendy,Then Brighton as they climbed into the swimming liquid the tub was already feeling actually pretty tight as they tried to squim in squirm and move it the liquid splashing all over them. Brightens free shirt Naturally he didn't want that T shirt destroyed by slime it took a lot of time to get that one made. Especially with those nice new lumps popping up. The other girls were starting to feel strange too like their crotches were on fire late in the good way they noticed as Lisa's package was bigger as well as her melons, brighton looked down! “ I HAVE TIT & My voice?” Which sounded more feminine the slushing of the green goop sticking to their bodies.

All three girls knows they're bulging in their One pieces sliding up like a worm wrapping around their ever expanding melons caressing their newest appendage they start to moan and groan. Cum Making their suits look bigger and stretch tighter and tighter they were having trouble already trying to climb out of this stuff it was like it was clinging them back into the thing at the same time that they didn't want to leave. Lisa was grabbing her giant wand which was now about a foot long and oh boy was it thick it's like she was holding a tree. Her lady friends were also slowly catching up to her now they were all in big Tits Territory. Brighton was the first one to try to climb back out but the slime just was so slippery and sucked her back in falling in between the massive melons with hers squeezing in as well.

The swimming trunks feeling so tight she placed her hand down there and found a crevice that wasn't

the whole for her bowels grabbing her foot long which was twisting out through the side of the left leg hole, They could feel the area of filling Up with more of their own gunk. The slime was now pouring out of the container splashing all over the place, Brighton knew that her T shirt was just gone probably covered in the slime and the goop that was pouring out of the container is their bodies were swelling getting tighter and tighter as loud ripping noises could finally be heard the sigh of relief.

“We need to get out of here before we get crushed!” We marked Sabrina as she was deeply breathing and looking at her own tips, She decided to do exactly what Brighton's tshirt said placing her hands right on Maya's slowly expanding chest and pulled sliding herself up. Dick Sliding up and down Maya's large rack, Hot Juicy Cum Spraying and mixing with the slimy green liquid, Sabrina fell out of the container slowly followed by Wendy, Then Lisa who was also free rolling naked but Maya was still stuck inside getting pulsingly large as the goop was spraying all over the girls still and Brighton was also still inside now being crushed! Dick Trapped in between the cushions of the buttock pumping Maya with more and more which made her belly swell and expand the metal began to screech you can lay loud noises the girls quickly trying to climb up in the slimy goop sliding away just before the metal container could break apart splattering the yard with all of its green slime them glowing.

“We have vaginas!” Remarked Brighton still trying to climb off of Maya? Lisa grabbed hers which was now starting to get way past the danger point see if she could bend it it hurt though it's worth the try and she succeeded Sabrina and Wendy did the same as they were literally FUCKING Themselves inflating their own bellies and wounds with their massive COCK & CUM Just as the rain started to storm around washing off most of the gunk from their bodies trying to climb up from the ground still swelling and growing and moaning they ran inside naked & huge.

“This was a wonderful party Lisa can I have the recipe of some of the ingredients I have the urge to reference a new party for myself maybe we can even have a bigger pool party?” Remarked Sabrina rubbing her giant belly and then she moaned again that she made herself even stretch bigger Maya was still outside with Brighton covered in rain water. “Sure thing although I think Maya was the one who brought the stuff that made it glow maybe it was one of her ingredients?” “No that was me and I doubt it mine was just the standard glow stick chemicals which you're not supposed to actually eat but they're sometimes tasty.” Remarked Wendy Looking down at her sperm filled belly they all felt like they were going to burst as they all chuckled.

One month later.

“So have you picked out the names?” Remarked Lisa rubbing her giant belly she looked like she was 8 months due and it was only the first month too Her a fellow heavily pregnant friends. “No still not sure, And I think I will be able to host that party, I finally booked the entire pool.” Remarked Sabrina rubbing her giant belly as well they were all walking around naked but they're giant 5Feet long with the girth of 6 for two and Lisa's was much much bigger on both ends laying out in the yard was the newly named Britney With her giant rod ready to pierce the heavens.

The end
